

WILL LEARN  
PRESIDENT'S  
PEACE VIEWS

WE WILL HEAR WILSON DISCUSS  
POSSIBILITY OF ENDING  
THE WAR.

## TAFT FOR PEACE ENVOY

Theodore Marburg Rouses Great En-  
thusiasm With Suggestion of For-  
mer President for Mission.

Gerard Sees Peace Ahead.

Berlin, May 26, via London. May 27.—United States Ambassador James Gerard is convinced that peace is in sight, according to an interview published in a Munich paper from its Berlin correspondent. Mr. Gerard is quoted as saying: "Nothing can shake my confidence that peace is on its way. The ambassador referred to the settlement of the differences of the United States and Germany, as preparing the way for President Wilson to take up the question of peace."

[BY ASSOCIATED PRESS.]

Washington, May 27.—President Wilson today finished the carefully prepared speech he is to deliver tonight before the league to enforce peace. The speech will be devoted largely to broad aspects of the international situation which at least by inference will bear on the war and will lead into a discussion of fundamentals, he believes should underlie world peace.

To Give Peace Views.

The speech is expected to reveal for the first time the president's interpretation of the trend of the world's operations on the question of peace. A league of nations, backed by an international police force, is looked upon by the president as a possible means of minimizing the danger of war. It is understood that tonight he will carefully set forth his views on the question.

There were renewed evidences today that the president is deeply interested in the continued public discussions of peace, although there were no indications he was yet ready to renew formal efforts to end the war.

Taft As Peace Envoy.

Theodore Marburg of Baltimore, former minister to Belgium, on prolonged applause with suggestions that former President Taft be sent abroad to interest European countries in a peace settlement.

If the allies committed to the league's program before the war ends, a permanent peace would be assured. In a defeat of Germany, he said, he saw prospects of a more lasting peace.

To Form Local Branches.

In every state, county and city in the United States, branches of the league to enforce peace must be organized to create public sentiment favorable to this country's joining a federation of nations to minimize future wars. Speakers asserted today at the league's annual conference that the league planned to solicit \$300,000 with which to carry on the campaign.

The campaign started at a luncheon yesterday to raise \$300,000 to further the league's work. More than \$373,000 at noon today.

NO CHANCE TO GET  
A JURY THIS WEEK

Examination of Talesmen in Orpet Trail Will Be Continued Until Next Week.

Waukegan, Ill., May 27.—Selection of a jury to try Will H. Orpet on the charge of murdering his sweetheart, Marie Lambert, probably will not be completed today when the noon recess of court was taken. Only two additional jurors been asked, but W. E. Becker, who had been agreed upon by both sides yesterday, was prematurely changed by the state. Twenty men were exempted at the morning session.

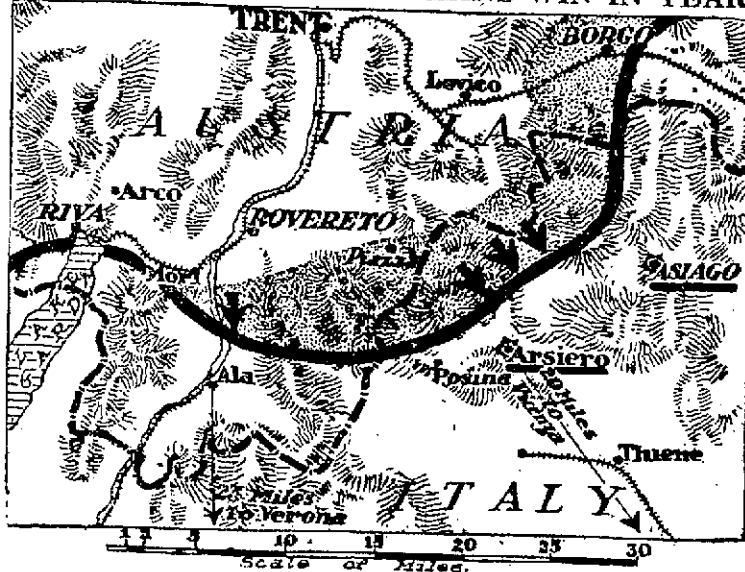

Judge Donnelly appeared especially anxious that some progress in the selection of a jury be made today and announced that he would make a session of court this afternoon. Attorneys for both sides, however, expressed doubt the final panel could be chosen before Monday.

SHRINERS' CONVENTION  
TO BE HELD IN BUFFALO.

[BY ASSOCIATED PRESS.]  
Buffalo, N. Y., May 27.—Arrangements are being made for the holding of the annual convention of the Ancient Egyptian Order of the Shrine in this city July 13, and it is announced that unusual efforts are being made to set a new record this year for assemblages of this character. It is estimated that the convention will bring to Buffalo close to a hundred thousand persons.

J. Putnam Stevens, Imperial Potentate of Portland, Me., has just completed a tour of the southern and western states, and the Hawaiian Islands, devoted to urging the temples to send large delegations to the 1916 Mecca. Buffalo has pledged visitors for the entertainment of the delegates. Many of the special trains in which the nobles will make the pilgrimage are being chartered out. On California temples are spending \$5000 on their trip. The Chicago passenger steamer on the Great Lakes for the water trip to Buffalo and are putting \$40,000 into their excursion.

Among the amusement features planned is a national aeroplane race which is to open here July 13. Negotiations are under way to remove, if possible, the Canadian government's objections to visitors at the Fort Niagara camps, so that the shriners may be accorded the privilege of seeing the Overseas regiments.

AUSTRIANS GAIN AS MUCH GROUND IN  
ONE DRIVE AS ITALIANS WIN IN YEAR

The dotted area on this map shows the approximate difference between the extreme Italian advance in the Tyrol and the point to which the Austrian attack in the past ten days has rolled back the Italian armies.

DEAD MAN ACCUSED  
FOR SHORT ACCOUNTS  
TO BORDER TODAY

Bachelor, Who is Charged With Taking  
Hospital Funds, Testifies Man  
Now Dead, Took Money.

[BY ASSOCIATED PRESS.]  
Oshkosh, May 27.—A dead man was accused of being short in his accounts when Alfred A. Bachelor, former steward of the northern hospital for the insane, charged with appropriation of funds and property of the state, took the stand in his own defense.

Bachelor denied he had not turned the information against him, and in explaining the drawing of interest from funds, deposited in local banks, Bachelor said he and his brother had made up a shortage of over \$500 disclosed in accounts of the late H. S. L. Paul, former bookkeeper at the hospital.

He said Mr. Paul had promised to make up the amount, but was not able to do so. Bachelor testified he had promised to Paul and made good the shortage, borrowing part of the money needed and using interest from deposits to reduce the remainder.

FAMOUS AVIATOR HAS  
ESCAPED THE SWISS

Gilbert Who Established Flying Records And Won Honors In Fighting  
Eludes Swiss Guards.

[BY ASSOCIATED PRESS.]  
Paris, May 27.—Eugene Gilbert, one of the best known French aviators, who was interned in Switzerland in August last year on being compelled to land by lack of gasoline, has escaped after a raid on the Zeppelin establishment at Friedrichshafen.

He has not been heard from since. The Zeppelin establishment at Friedrichshafen, which has not been confirmed, "officially" that M. Gilbert has reached Italy. M. Gilbert who established several world records before the war joined the French forces at the outbreak of hostilities. His first escape from a detention camp in Switzerland was made shortly after he was interned.

from on demand of Swiss government because he did not give authorities sufficient notice that he had withdrawn his word of honor not to attack the Swiss. He was released last M. Gilbert made his second escape, and his liberty but was recognized and was arrested at Holden, Switzerland.

SUES TO BREAK WILL  
INVOLVING A MILLION

German, Whose Mother Disinherited Him When He Enlisted, Brings  
Action in Court.

[BY ASSOCIATED PRESS.]  
Lebanon, Pa., May 27.—Reunite his mother, Rosalie Parent Coleman, who died in Paris in April, 1915, had disinherited him for joining the German army in the present war. Dr. Guido Haniel of Freiburg, Germany, today entered suit in the Lebanon county court here to break her will. About one million dollars is involved in the case.

Dr. Haniel had been named as principal beneficiary in his mother's will, but a codicil dated February 23, 1915, after he had entered German service, disinherited him and bequeathed her share in Cornwall in the estate of Lebanon county to C. J. Brayton, a nephew, Ronald George DeReiter, a cousin, and Camille Besson, a friend, all Americans.

ERICKSON'S PLACE  
FOR PROF. TROMBOWER

Gov. Philipp And University Professor  
Hold Conference On Railroad Commission Appointment.

[BY ASSOCIATED PRESS.]  
Madison, May 27.—Prof. H. R. Trombower of the state university, will probably be selected as state railroad commissioner to succeed Halford Erickson, resigned. Governor Philipp had a long conference with the professor today when entire plans of railroad commission were discussed. It was not announced, however, that Mr. Trombower had accepted the position, but general impression among capital employees at railroad commission is that he will accept.

BANKERS NOT GUILTY  
OF PERJURY CHARGE

Jury Trying Three Men at Wash-  
ington Render a Verdict of  
Acquittal.

[BY ASSOCIATED PRESS.]  
Washington, May 27.—The three Riggs bank officials on trial here for perjury were today found not guilty after the jury had deliberated nine minutes.

STATEMENT OF CLEARING  
HOUSE BANKS SHOW DECREASE.

[BY ASSOCIATED PRESS.]  
New York, May 27.—The statement of clearing condition of clearing house banks and trust companies for week ending May 26 shows a decrease of legal reserves. This is a decrease of \$11,980,960 from last week.

Special Service: The members of the Men's Bible class of the Belmont Methodist church will conduct a revival service Sunday evening, in the Army hall 101 North Main St. You are cordially invited.

HARD DRIVE  
GAINS RIDGE  
FOR AUSTRIA

CAPTURE 2,500 ITALIANS IN  
PIERCE ATTACK ON MOUN-  
TAIN TOP IN TYROL.

## VERDUN STORM CENTER

French Regain a Portion of Village of  
Cumieres But Are Again Driven  
Back, According to Ger-  
man Claim.

Vienna, May 27, via London.—Twenty-five hundred Italians, four guns, four machine guns and a quantity of war material have been captured by the Austrians who stormed an extensive mountain ridge on the Trentino front, according to an official statement issued by the war department here. The text of the statement follows:

"We have gained a new great success on the Italian front, capturing the entire mountain ridge from Cornocampo Verduno Maata. The enemy suffered sanguinary losses. We captured over 2,500 prisoners, four guns, four machine guns, 300 bicycles and much other material."

Claim Austrian Reverse.

Rome, via London, May 27.—A severe reverse for the Austrians in the Lagana valley is announced by the war department today.

Continue Offensive.

Rome, May 27.—The Austrian offensive is being continued with especial violence in the mountainous region of the Trentino front. The Italian resistance has checked the Austrian advance on a rush which otherwise would enable them to take the valley leading to Ventian provinces.

Take Part of Village.

Paris, May 27.—French troops have captured a portion of the village of Cumieres and are now taking German trenches northwest of the village. An attack on the French trenches bordering on Fort Douaumont, was repulsed according to the official statement issued by the war office today.

Force French Retreat.

Berlin, May 27.—French troops forced their way into the southern part of the village of Cumieres west of the Meuse, on the Verdun front, during stubborn fighting last night, but were driven out, the war office announced today.

ITALIAN SHIP SUNK  
WITHOUT A WARNING

French Torpedo Boats Rescue Thirty  
Members of Steamer Moravia  
Carrying Four to Genoa.

[BY ASSOCIATED PRESS.]  
Paris, May 27.—A Havas dispatch from Port Vendres, says that two French torpedo boats arrived there yesterday bringing thirty members of the crew of the Italian steamer Moravia, which was torpedoed by a German submarine on Thursday afternoon, without warning. The crew was abandoned in two life boats. The Moravia was on her way from New York to Genoa with a cargo of flour.

The Moravia was a steamer of 2,268 tons. She sailed from New York on May 22. She was reported missing on Gibraltar on May 23.

British Ship Sunk.

London, May 27.—The British steamer Moravia has been sunk. Her crew was rescued.

TWO DEAD IN FIRE  
IN SCHOOL BUILDING

Main Building of Penn College at Oskaloosa, Iowa, Burns, Causing  
Heavy Loss.

[BY ASSOCIATED PRESS.]  
Oskaloosa, Iowa, May 27.—Two men were killed, two probably fatally injured and property damage estimated at between \$50,000 and \$100,000 wrought by the fire in the main building of Penn college here early today.

Robert Williams, business manager of the college, and state secretary for the prohibition party, and Harry Oakley, a freshman, were killed.

George Minear and Howard Kelley, students, are in hospital and may die.

NO FORMAL CEREMONIES  
WITH NOBEL PRIZES ARE  
GIVEN OUT THIS YEAR.

[BY ASSOCIATED PRESS.]  
Stockholm, Sweden, May 27.—Official notice has been given that there will be no formal ceremonies this year in connection with the awards of the Nobel prizes for 1914 and 1915 announced some time ago.

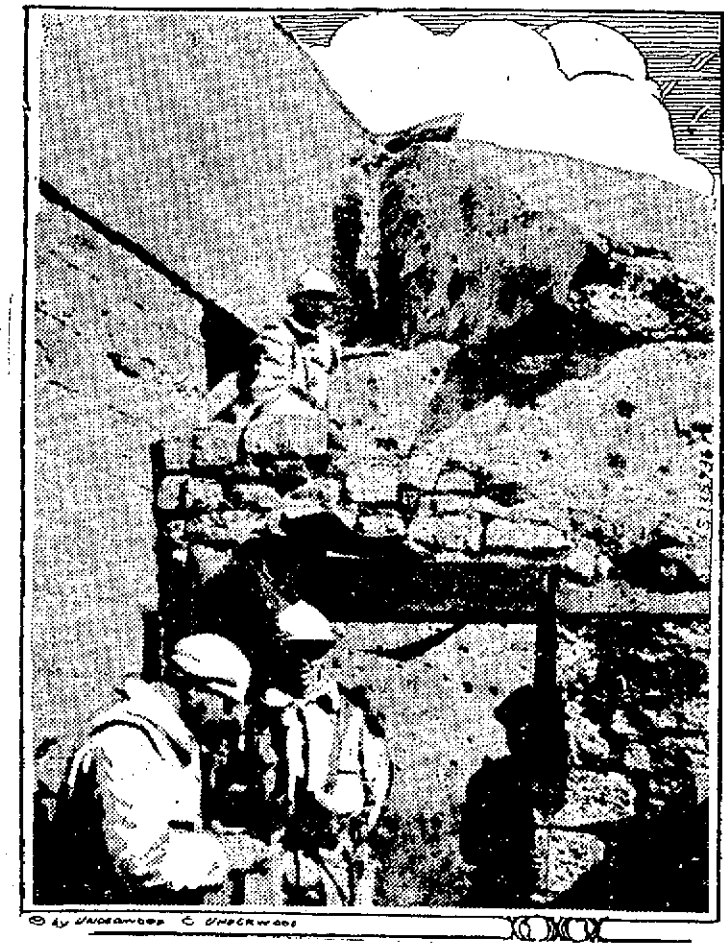

The award for chemistry, 1914, to Prof. Theodore William Richards, director of the Wolcott Gibbs Memorial Laboratory at Harvard University, will be awarded by the American minister, Ira Nelson Morris, and forwarded by him to the recipient. This will be about June 1. It is planned that when the war is over the prize winners of the war years shall come to Stockholm and hold a joint celebration at that time. Ordinarily the prizes are only presented in person.

The peace prize for 1914, of course, was not awarded. In accordance with the rules of the Nobel Foundation, when no worthy candidate is found, the prize is set aside for a special fund. The peace prize for 1915 also is held in abeyance but may be awarded next year if there are developments to warrant such action.

COKE AND IRON COS. OF THE  
STATE MAY MERGE TOGETHER

[BY ASSOCIATED PRESS.]  
Milwaukee, May 27.—The Evening Wisconsin today says that a merger of coke and iron interests in Wisconsin is now under way, according to reliable sources. This report says the consolidation offering practically all of the companies manufacturing coke and operating blast furnaces, means a deal involving millions of dollars.

## FT. DOUAUMONT, WAR'S SLAUGHTER HOUSE

Massive block of concrete, part of Fort Douaumont's defensive wall, dimly lodged by explosion of mine.

Fort Douaumont commands the attention of the world. This fort is the pawn of the Verdun front. It has changed hands several times and is now held by the Germans. The wholesale slaughter of troops at this point is frightful. Shell fire, rifle fire, mine, counter mine, charge, attack, and the heaviest of gun duels are features of the great battle there.

VIRGINIA DOSCHADIS  
FORMER JANESVILLE  
GIRL BEING SOUGHT

Daughter of H. G. Doschadis, Candy  
Salesman, Runs Away to Chicago  
—May Have Eloped.

[BY ASSOCIATED PRESS.]  
Chicago, May 27.—Search for a 17-year-old girl, who ran away from her home in Janesville, Wis., Monday night, was started today by Chicago police after they had been informed by her father H. G. Doschadis, that she had come to this city.

Doschadis who is a traveling salesman for a Milwaukee candy concern, said his daughter was joined at Rockford, Ill., by a man who boarded the train there.

Virginia was enraged because her mother would not let her go for an automobile ride with another girl and two men, said Doschadis. "After my wife was asleep she stole from the house and boarded an early train."

Virginia is an accomplished singer and dancer, and may be working in a cabaret here.

Virginia Doschadis, who is mentioned in the above dispatch, was a former resident of this city and lived with her parents, Mr. and Mrs. H. G. Doschadis, at 216 North Washington street. Mr. Doschadis and family left Janesville last August, when they moved to Dubuque, where he had business. Virginia was a member of the Janesville high school and was in her sophomore year when they left this city.

LA CROSSE MERCHANT  
ENDS LIFE IN RIVER

Despondency Over Business Reverses  
Leads Chas. T. Service to  
Commit Suicide.

[BY ASSOCIATED PRESS.]  
La Crosse, May 27.—Charles T. Service, for many years head of the Service Tailoring company, and widely known in the northwest in the tailoring and haberdashery trade, committed suicide last night in the Mississippi river. Service left a note to his wife that he had decided to "go to the river." Then he walked down the street and entered the Mississippi river.

He was seen by a small boy in a boat, who hurried to his aid and held his head above water until help arrived. When taken out of the water the man was dead. He had been despondent of late because of business trouble.

FIX "UPSET PRICE"  
FOR PACIFIC LINE

Ten Million Dollars Is Figure for the  
Purchase of the Western Pa-  
cific Railroad.

[BY ASSOCIATED PRESS.]  
San Francisco, May 27.—United States District Judge Maurice T. Dolan fixed \$10,000,000 as the "upset price" for the sale of the Western Pacific railway today in the foreclosure suit brought by the Equitable Trust company of New York.

OSHKOSH SUPERINTENDENT  
GETS A SALARY INCREASE.

[BY ASSOCIATED PRESS.]  
Oshkosh, May 27.—An increase in salary was given City Superintendent of School M. M. McIver at meeting of board of education last night, this being fixed at \$3000 in place of \$2300 paid formerly.

Three members of the board stood out against an increase claiming discrimination had been shown by comparing salaries of teachers and those unpaid below the cost of living. Others already getting good salaries had been further boosted. The janitors of city schools have petitioned for an increase in wages for ensuing year on account of high cost of living.

FIND WAITE  
IS GUILTY  
OF MURDER

CONVICT NEW YORK DENTIST OF  
SLAYING HIS FATHER-IN-  
LAW, JOHN E. PECK.

## REACH VERDICT QUICKLY

Deliberate One Hour and Twenty-Five  
Minutes on Fate of Accused—  
Will Be Sentenced June 1st.

[BY ASSOCIATED PRESS.]  
New York, May 27.—Dr. Arthur Warren Waite was today found guilty of the murder of his father-in-law, John E. Peck, Grand Rapids millionaire.

"Guilty of murder in the first degree" was the verdict of the jury after it had been absent from the court room one hour and twenty-five minutes. Waite was remanded to the Tombs to await imposition of sentence on June 1st.

The summing up of the evidence against Dr. Waite was concluded by both defense and prosecution soon after noon today. Justice Shearn then began his charge to the jury. Justice Shearn completed his charge at 1:32 p.m. and the jury went out to consider its verdict.

Dr. Waite entered the court room with the same apparently resigned nonchalant manner that has characterized his demeanor since the beginning of his trial. The prosecution promptly began its rebuttal of the testimony of the defense bearing upon Waite's alleged imbecility and idiocy by facing the jury with a commission of Dr. Ely Jelliffe of New York.

He testified that he had determined from an examination of Waite that the prisoner showed no signs of defective intelligence.

CLAIM WIRE TAPPING  
IS GROSS VIOLATION

State Senator Thompson Makes Statement  
Regards Allegations Against  
New York Police.

[BY ASSOCIATED PRESS.]  
New York, May 27.—State Senator Thompson, chairman of the legislative committee that has been investigating the methods of New York police in tapping telephone wires to hear private conversations, said today the police had exceeded their rights and expressed a belief that Governor Whitman would be asked to appoint the supreme court members to conduct further and more searching inquiry.

The Thompson committee took up the complaints against the police incidentally in pursuance of their general investigation of public utilities. Chairman Thompson announced this phase of its activities is now closed.

Members of the wire tapping squad admitted at yesterday's hearing that they had listened recently on at least five lawyers' wires.

"Conversations between lawyers and their clients," said Frank Mose, the committee's counsel, "between physicians and their patients, and ministers and members of their churches, are held sacred and confidential by the law, but police do not so regard them."

MRS. KELLOGG LOSES  
SUIT TO BREAK WILL

Sues to Break Will of Mother Whom  
She Was Alleged Was Influenced  
by Attendants.

[BY ASSOCIATED PRESS.]  
Chicago, May 27.—Mrs. Loyse Kellogg, divorced wife of Pierpont Isham, today lost her fight to break the will of her mother, Sarah H. Kellogg, when a jury returned her verdict that her mother was of sound mind when the instrument was drawn.

The trial had attracted attention because of the social prominence of the Kelloggs and the size of estate which approximated \$500,000.

The will of Madam Kellogg provided her daughter should receive life interest in the estate and three attendants were made beneficiaries of trust funds, amounting to \$120,000. Mrs. Kellogg charged her mother was unduly influenced by the attendants.

FRENCH ADVENTRESS  
IS REPORTED DEAD

Madame Jane Dieulafoy, Renowned  
for Daring Exploits, Has Passed  
Away in Paris.

[BY ASSOCIATED PRESS.]  
Paris, May 27.—Madame Jane Dieulafoy, author, explorer, chevalier of the Legion of honor and possessor of the French government for wearing mail apparel, is dead.

In the sixty-five years of her life, Madame Dieulafoy passed through experiences which caused her to be regarded as one of the most remarkable women in France. She was born in Toulouse, and was not yet out of her teens when she married Marcel Dieulafoy, a young engineer. He went to the front during the Franco-Prussian war and took his bride with him. She disguised herself as a man in regulation French uniform and fought her husband's side. Both returned unscathed from the battlefield, and for a decade, little was heard of the adventurous young woman. In that time her husband established a high reputation as an engineer, an archaeologist, and in the 80's was commissioned to go to Asia for archaeological research. It was a dangerous and arduous task, but Madame Dieulafoy accompanied him. She spent several years in Chaldee and Persia, sharing his work and perils. They were rewarded by discovering the ruins of the palaces of Darius and Artaxerxes and brought back many relics which were placed in the Louvre.

After returning to France Madame Dieulafoy who had become accustomed during her travels of a constant wearing of a man's costume received authorization to appear in public in this apparel. She wrote a large number of books on historical archaeological themes one of which was cited by the French academy as a work of special excellence. In 1913 she inaugurated a movement for formation of women's volunteer corps to replace men in the non-combatant section of the army with the idea of freeing the men for active service.

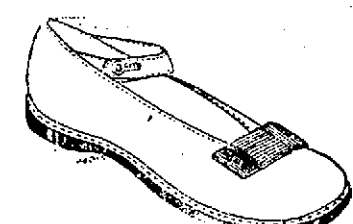

## The Family Advisor

The newspaper is the family advisor. An advertiser who talks through its columns has the prestige of its introduction. There is a minimum of waste. Every copy reaches one person or more, generally more.

Well timed newspaper advertising reaches the people when they are in the mood for buying. Well planned newspaper advertising is almost as sure as anything can be in this world of uncertainties.

If any manufacturer who is interested in newspaper advertising will address the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York, will be glad to answer questions.

### AUTO PARTY FROM BELOIT ESCAPE SERIOUS INJURY WHEN AUTO TURNS TURTLE

Six persons escaped injury Thursday night when a large touring car owned by Charles S. Shibley, 542 Broad street, skidded into a ditch and turned turtle on the road to Beloit, four miles south of this city. When the machine started plowing through a rut of sand, several of the passengers were thrown clear from the car. The other was caught under the machine when it turned over, and one boy could not be freed until the car had been lifted and the child dug out. Several of those in the accident were bruised and cut slightly. About one hundred dollars' damage was done to the machine.

### DURBAR DERBY WINNER WILL BE SOWN AT BELMONT PARK.

(SPECIAL TO THE GAZETTE.) Belmont Park, L. I., May 27.—The sale of the English and French breeding and racing establishments of the late Herman B. Duray, which the Powers-Hunter company will conduct in the paddock at Belmont Park here today, will give to the horse-breeding industry of the United States another British Derby winner, Durbar 20, a son of Rahabek and Armenia. Durbar 20, which was bred by Mr. Duray in France, won the Derby of 1914 from Hapsburg and Peter the Hermit. Hapsburg defeated a first class field in the Jockey Club stakes a little later. After winning the Derby, Durbar 20 went over to France and finished third in the Grand Prix de Paris and his caretakers had a brisk time getting him away from the German invasion later in the year.

### CAN "LEFT HOOK" WHITE END MITCHELL'S CAREER IN THEIR MILWAUKEE BOUT?

(BY ASSOCIATED PRESS.) Milwaukee, Wis., May 27.—Asserting that he is in the best physical condition of his ring career, Richie Mitchell, local lightweight boxer, matched to meet Charley White, Chicago, here Friday, June 2, in a ten round no-decision contest, predicts that he will give the Chicago boy the most severe drubbing he ever has received in a ten round bout. Mitchell, in declaring himself, takes exception to the alleged remarks of Nate Lewis, White's manager, that he (Mitchell) feared to meet the Chicago brawler and backed out of a match scheduled for May 9 when in reality, an attack of blood poisoning necessitated a postponement. The fight again was postponed from May 28.

### CHILDREN WHO ARE SICKLY

Do not accept an imitation. Sample mailed FREE. Address: Mother Gray Co., 100 N. Y.

## VETERANS TO MARCH IN MEMORIAL PARADE

MEMBERS OF G. A. R. ONCE AGAIN WILL PARADE IN THE MARCH OF HONOR.

## MANY EVENTS PLANNED

Many Features Planned for Memorial Day Exhibition—Exercises at Opera House in the Afternoon.

Hans Jaekle, who will officiate as marshal of the Memorial day parade, this morning announced the arrangements and details decided upon by the general Memorial day committee as regards this feature of Tuesday afternoon. The gigantic parade will organize at one o'clock noon on South Main and intersecting streets. The Janesville fire police are to lead the procession and will be followed by the juvenile division, which is to form on South Main street at the Lewis Knitting factory. Mrs. Sarah A. Carman will be in charge here. The Boy Scouts will march in the afternoon, the sons of Mr. Jaekle, Harold and Robert, aged ten and seven years respectively. Mr. Jaekle has devoted much time to perfect his youngsters as drummers and they are now able to keep pace with the best in the city. They will be one of the features of the parade. The school children of the city have been invited by the committee to be in the parade. For every boy and girl who will march there is to be a flag for him or her to carry.

The city commission, Mayor James A. Fisher and the Janesville Fire Department, Cummings and Peter J. Goodman, come next in automobiles. The fire and police commission is next and will be followed by the fire department and the police. Roy Palmer will be in charge here and will also help Mrs. Carman with the lining up of the children.

The Power City band is next in line and they will come from the Wisconsin No. 9. I. O. O. F. and other society drill teams arranged in alphabetical order. As the list now stands from invitations accepted by the various societies requested to have drill teams and delegations participate, the Eagles, Woodmen of the World, the La Crosse club and the Royal Neighbors are to be represented. It is thought, however, that a better turnout of local organizations will be seen on Monday over that which today appeared on the lists of the committee. Carl Faust and James Cassidy will be in charge of the fraternal section. This will form on Park street.

Janesville people who are not affiliated with any organization to have a decoration or degree team in the parade and who are patriotic enough to enter into the spirit of the day will be able to march with the big body. A section is to be removed for them in the parade and every citizen who can possibly do so is urged to swing into line.

The veteran's section will organize on Court street, between Main street and the Relief Corps and the Ladies Auxiliary to the Spanish-American War Veterans will lead. The ladies who will be in the parade are going to walk. They are determined to show their patriotism and have scorned the invitation of the committee who desired to provide automobiles for them. The Spanish war soldiers and all discharged soldiers and sailors are invited to march. The parade will march directly in front of the Grand Army of the Republic section. J. P. Carle will be in charge of this division. The line of march will be north on Main street to Milwaukee, west on Milwaukee to Marion; south on Marion to Pleasant; east on Pleasant to high; north on High to Milwaukee, and east on Milwaukee to the Myers theatre, where each division will organize, forming a long lane through which the automobiles carrying the Civil War veterans will pass to the opera house and lead the entrance of the afternoon.

Here the exercises of the afternoon will be held. A. E. Matheson will deliver the patriotic address of the afternoon. Miss Evelyn Welsh, daughter of Mr. and Mrs. Thomas E. Welsh, South Jackson street, will give Lincoln's Gettysburg address. Superintendent J. T. Hooper of the state school for the blind has given permission for the school orchestra to furnish the music of the afternoon.

During the morning the regular Decoration day ceremonies will be held at the cemeteries. The Janesville Military band will play on the march to the cemetery, the marching band being at the East Side I. O. O. F. hall at 3 o'clock. Members of the Relief Corps and others will make the trip in automobiles. The graves of the deceased veterans will be appropriately decorated.

Janesville business men have entered into the spirit of the day and will close their stores throughout the day. The final meeting of the general committee in charge of arrangements will be held on Monday evening at 8 o'clock at the Eagles' hall.

## RED AND WHITE SOX PLAY AT YOST PARK

### Two Teams Will Battle for Second-day Championship of City Sunday Afternoon.

The first game of a series between the Janesville Red Sox and the White Sox, challengers for the secondary title of the city and southern Wisconsin, will be played Sunday afternoon at Yost park. The Red Sox have captured five straight so far this season, and last year clearly won the title in the West. The White Sox, after one defeat from the Red Sox club, have strengthened with Sullivan, Lee and Stewart, and with a new battery, expect to turn the tables. Berger and Viner, the Red Sox pitchers, will show the W. S. some fancy burling that has proven hard to beat, so far this season. The line-ups for the two teams will be: Red Sox—Spohn, c; Berger, p; Viner, p; Jackson, ss; Miller, 1b; Hill, 2b; McGinley, 3b; Roherty, Dopp, Fullerton and Hoveland, fielders. White Sox—Mayer, c; Sullivan, p; B. Lee, 3b; Spohn, McCue and Viller, fielders.

### CONDUCTS OPEN AIR RALLY ON THE STREETS TONIGHT

The gospel service of praise, prayer testimony, which will be held tonight on the street, will be the most unique ever conducted in Janesville. Evangelist H. E. Kershaw, who will have charge, will be assisted by Evangelist E. Ellison of the U. S. church. Mr. Howard and a host of representatives from all the churches. The evangelist promises to sing an international medley with concerning accompaniment in the following languages: German, Swedish, French, Scotch, Welsh, Arabic, Spanish, Hindoostani, Chinese and Turkish. The meeting Sunday afternoon in the Y. M. C. A. will be for men and women and in the evening the evangelist will hold a service for all those without a church home in the "Airdome" next door to the Y. M. C. A. The street meeting tonight will be at the corner of Milwaukee and River streets.

## PROGRAMS PREPARED BY SCHOOL CHILDREN FOR MEMORIAL DAY

Few of the Grades in Public Schools Will Have Programs on Monday Afternoon.

A number of grades in the different ward schools, will observe Memorial Day on Monday afternoon by having programs appropriate to the occasion. In cases where the grades will take part in the exercises at the Myers Theatre Tuesday afternoon they will not have programs at their schools on Monday. Below are the grades of the fifth and sixth grades will combine and have their activities together. The third and fourth rooms of this school will do the same. At the Jefferson school the fourth grade has prepared elaborate exercises. The Adams eighth and first grades will have programs. Following are the programs:

### GRANT SCHOOL.

Combined Fifth and Sixth Grades. Song—America—School. Recitation—My Native Land—Fifth Grade. Reading—Respect for Our National Song—Empire. Reading—Selected from "A Man With-out a Country"—Kenneth Dixon. Song—Star of Wisconsin—School. Essay—History of Our Flag—Dorothy Ranger.

Reading—The First American Flag—Glenn Townsend. Recitation—Barbara Fritchie—School. Reading—Brigette of the Flag—Charles Olson.

Salute to the Flag—School. Song—Star Spangled Banner—School. Reading—Saluting the Flag—Delia Bergman.

Reading—The Flag Goes By—Helen Tress. Recitation—The Union—School.

Reading—A Sight of the Flag Better Than Medicine—Sigrid Dahly. Reading—The Beautiful Stranger—South Babcock.

Song—In the Woods is Peace—School. Recitation—The Blue and the Gray—School.

Song—How They So Softly Rest—The first and second grades will sing patriotic songs, but will have no formal program.

### Third and Fourth Grades.

Song—America. Recitation—Driving Home the Cows—Mildred Townsend.

Reading—Mrs. Cordelia P. Harvey—Jessie Johnson. Song—Maryland, My Maryland.

Recitation—The Soldier's Reprieve—Lillian Brohm. Recitation—Washington's Christmas Party—Ray Dowd.

Song—Battle Cry of Freedom. Recitation—The Blossom Army—Florence Eddy.

Song—Tenting on the Old Camp Ground—Harold Jaekle. Recitation—The Major Explains—Frances Brennan.

Song—Star Spangled Banner, Swanee River, Old Kentucky Home, Old Black Joe.

### JEFFERSON SCHOOL.

Fourth Grade. Song—The Flag is Passing By—School.

Recitation—The Blue and the Gray—Elvira Rind. Song—Girls: Florence Dialogue Beth and Esther Nurse, Bernice Gibson, Bessie Elles, Grace Newell, Mildred Hubert, Edna Alder, Edna Little, Josephine Bear.

Song—To a Linnet—School. Piano Solo—Thelma Chesenore. Recitation—The Name of Lincoln—Annette Brigham.

Polk Dances—Boys and Girls. Duet—John White, Walter Little. Recitation—The Flag—Beulah Ransom.

Song—Music of the Bells—School. Dialogue—Boys and Girls. Song—Cover Them Over With Flowers.

Duet, Piano—Annette Brigham and Annette Wilcox. Patriotic Quotations—Boys. Polk Dances—Boys and Girls. Song—America—School.

### ADAMS SCHOOL.

Eighth Grade. "Life of Lincoln"—Told by twenty-nine pupils.

Songs—In Woods is Peace, The Star of Wisconsin, Star Spangled Banner, How They Softly Rest, America.

First Grade. Song—School. Recitation—Katherine Wilcox. Recitation—Donald Fitchett. Recitation—Dorothea Granzow. The Little Sisters in a Row—Donald Ashton.

Out Walking—Elizabeth Shook. Recitation—Leah Adams. Recitation—Marlene Dillon. Recitation—Frederick Elser. Recitation—Harold Resman.

Wynken, Blynken and Nod—Clarence Ward. Remembering Dad—Frances Barker. Easy Flingers—Mata Hilton. Rhyme and Reason—Chaderton. The Rain is Raining All Around—Virginia Heffron.

Sorrows—Gordon Lamb. I Have a Little Shadow—Imogene Robbins. Recitation—Rienhold Stark. The Piper's Son—Homer Gridley. Song—School.

The part that the school children will take at the Myers will be as follows: The Flag Raising. Songs by Pupils: Star Spangled Banner and America.

Song—The White Sox. Song—In Woods is Peace. Song—How They So Softly Rest.

### MILTON COLLEGE DEFEATS PLATTEVILLE NORMAL 6-0

Milton, May 26.—Milton college baseball team defeated Platteville Normal today on the local's ground, 6-0. Platteville's pitcher was hit hard, allowing the collegians to gather nine runs in six innings. The Normalites left the field when the bases were full and one game, in order to catch the afternoon train for Whitewater. Lush allowed scattered hits, while his teammates gave him excellent support. Burdick batted 1.000. Strick out by Lush, 10c; by Reach, 2. Umpire, Whitford.

Dr. F. C. Binnewies—of Janesville, was in town Friday. It is reported that the Milton highs witnessed a ball game at Walworth last Thursday.

Dr. Henry Ogden, of Ft. Atkinson, was in the village yesterday visiting friends.

Paul Colvin, of Janesville, took in the ball game here yesterday.

RELATES OF COMBATS  
IN HAITIAN STRIFEPRIVATE VICTOR BLEASDALE,  
UNITED STATES MARINES,  
SENDS LETTER AND  
PHOTOS.

## ESCAPE FROM PRISON

Bandits Captured by Marines Escape  
From Prison and Cause Further  
Trouble in Stormy Little  
Republic.

From Port Liberté, Haiti, an interesting letter has been received from Victor Bleasdale, son of J. R. Bleasdale, who has been achieving a notable record as a crack shot and as a dutiful marine with the United States marine corps, stationed at this troubled little republic. The Mexican trouble has eclipsed the Haitian rebellion in importance, and as a result little is heard from the story little is in the Caribbean sea below Cuba.

In this tropical island United States marines, fresh from the training sta-

run in the interior by myriads of insects, scorpions, centipedes and the deadly tarantula, they have become seasoned fighters. In the lower lands

my last letter, for at that time we all thought we would probably be back to the states, God's country, in several months. First came the Mexican

bandits, Cacos, rebels and cutthroats were caught by the marines. We had about fifty of the worst negroes in the stone building, which was under guard at all times by the marine sentinels. Least of all did anyone think that any aid would be given them to make their escape, but the reverse was true.

Someone came up in the back of the prison and drilled a hole through the solid stone wall. This sounds simple, but the prison had thick walls with an open front hemmed in by barbed wire. The sentries could see whatever was going on within the prison at all times. The prisoners worked the stratagem by sitting along the walls—sunning themselves—as they are in the habit of doing. When the hole was finished they stood or sat so as to cover it up completely. When the sentry would walk his beat, one of them would slip out the hole and the sentry would not miss him on account of the prison being so crowded. You want to remember that down here the marines have been suffering from fever and terrible heat, and the conditions have affected the troops so that nothing short of actual fighting brings all one's senses into working shape. A sentry will walk back and forth apparently alive, but in reality he is "dead to the world." "Doping off" it is called in military service.

Escape From Prison.  
"Anyhow nineteen prisoners escaped before the sentry noticed any thing wrong, and at that time we were ready for 'taps,' which means all

Mounted patrol leaving camp to clear trail of Haitian bandits and Cacos.

all tropical productions grow to perfection, and tropical fruits and foods are deteriorated to such an extent the United States soldiers are fed only on

mixup, when one regiment of marines was expecting to be ordered from here to Mexico, and we were all standing by, hoping to see a battleship pull in

Arresting a bandit, captured by marines after they surrounded his shack in the mountains.

Searching of Native homes in jungles for outlaws.

tions, were sent over a year ago to protect the lives and property of American citizens from bandits, even more fearless, bloodthirsty, than those whom Villa has gathered around him. The majority of these marines sent to the island were but boys from eighteen to twenty-four years of age, and at this island, wrecked by repeated earthquakes, and over-

food brought in to the island. The same fate met the fifty thousand French soldiers who perished from disease trying to conquer the island, threatens the marines.

The island is populated by a cosmo-

and take us off this 'second Hades,' since everything had quieted down there. On the night of March 23rd came the sensational prison escape, which prevented us from 'going home.' Ever

lights out so that everything is quiet. All unexpectedly came the call of 'Corporal of the guard,' and the tone of his voice made the whole garrison grab their rifles. Then came a lone rifle shot, and the hole was blocked by a bandit, shot dead in the act of escaping, with the others eagerly waiting to crawl through the hole. In less than a minute we had fallen out and were surrounding a large area of brush and ruins, back of our garrison. It was very dark and slow work, for it is not healthy to do any running at night around an armed camp when the rule is to halt with a bullet, never mind a challenge. By the time we had the place surrounded, all the prisoners except two who got out the hole had made their escape. These two bandits tried to run through the cordon of marines, so as to make their escape into a marsh which backs up from the ocean. They were visible in the darkness, but when a marine called to them to surrender, they both disappeared, as they threw themselves on the ground. One marine fired three shots into the darkness, and later on with the aid of a lantern, there was the body of the bandit, pierced three times, each shot taking effect. The other man was captured alive. So seventeen of them made

A detail in search of bandits crossing a mountain stream.

politan group of nationalities, but the native colored tribes afford the military authorities the greatest trouble. The history of the island is filled with negro wars, bloody combats, disgraced by acts of unnecessary cruelty and vengeance. Outbreaks have been continuous features of this little republic from the time France vainly sought to establish it as a colony.

Parts of Letter.  
Parts from Private Bleasdale's letter follow: "Things have changed since

since coming to Port Liberté we have been collecting prisoners in the mountains and jungles. Murderers,

If Hair's Your Pride

Size for Size, than  
Goodrich Fair-List Tires

"Black-Tread" Tires

Armed bandits are guarding all the trails leading into Port Liberté and hold up all the people that try to reach the town that are unarmed, stealing their valuables, even to carts and horses. Yesterday (April tenth) we went out on a scouting party and ran into a band of them. They only fired one volley and ran into the brush, so that our return was only killed one. He was the leader, and like many of his kind, showed no fear of death, for though he was fatally shot, he only laughed and refused to give any information of the hiding place of his band, as he died. Today another detail went out to clear the trails, and they had several skirmishes with bandits, and among these killed was one of those who escaped from the stone prison. A courier was sent out from our company to carry a message to another company, and was captured and put to death. This letter will go to Cape Haitien via a native sloop, so I am trusting to luck that it goes through to the states.

GERMAN IN AMERICA  
WILL VOTE AGAINST BOTH  
ROOSEVELT AND WILSON.

(SPECIAL TO THE GAZETTE)  
Chicago, May 27.—German-Americans unreservedly against both Theodore Roosevelt and Woodrow Wilson for president of the United States, was the slogan Illinois German-Americans expected to plant in the minds of the officials of every German-American alliance attending the meeting of the National Alliance which convenes in Chicago tomorrow.

One hundred officials of alliances of German newspapers are expected to attend.

"Opposition to Wilson and Roosevelt is an Illinois German-American idea and we expect to promulgate it throughout the United States," Dr. Hermann Gerhard, chairman of the political committee declared today.

"I know the man I want to see president," Dr. Gerhard said. "I may get a chance to vote for him. He would not say so, but I believe he will nominate Roosevelt and unless Wilson is nominated on the first ballot I don't believe he will be nominated."

## SHARON

Sharon, May 26.—Mrs. John Rossman and daughter, Beryl, of Beloit, came Thursday for a few days' visit with the Rector family.

Calvin Barnett of Mendon, Ill., is visiting at the home of H. Reulman, A. A. Lyman spent Thursday in Chicago.

John Chester transacted business in Madison Wednesday.

Mrs. Elmer Kinyon of Beloit is visiting relatives in town for a few days.

Maud Blodgett of Delavan lake, visited the home folks one day this week.

Miss Bertha Shayer arrived home Thursday after spending the winter in California.

Frank Stupfell of Delavan is visiting his mother, Mrs. Mary Stupfell, for a few days.

Mr. and Mrs. J. A. Mortimer and son, and Mrs. F. M. Willey and daughter, were brief callers at Taylor's Lodge, Delavan lake, Thursday afternoon.

Mrs. Art Slinger of Harvard, came Friday to visit friends and attend the commencement exercises.

Mr. and Mrs. Henry Kinyon took their youngest daughter, Ruth, to Janesville Thursday to consult a physician in regard to her health. She has been ill and unable to attend school for several weeks.

The remains of Miss Margaret Bronson of Chicago, were brought to the home of her uncle, John Bronson, Thursday, where the funeral will be held Saturday. Miss Bronson was thirty years of age.

F. M. Willey went to Beloit Friday and drove home a new auto truck for the firm of Willey and Larsen to be used for delivering groceries.

Mrs. Laura Phelps has been entertaining her sister from Monroe, for a few days.

## Orfordville News

Orfordville, May 26.—A delegation of local Odd Fellows went to Milton Junction on Wednesday to participate in the exercises of the district convention that was held there.

Rev. O. L. Haavik of Spokane, Washington, arrived in the village on Wednesday and will spend some time visiting with friends here. Mrs. Haavik has been visiting at the home of her parents, Mr. and Mrs. O. A. Peterson, while Mr. Haavik has been in attendance upon the meeting of the synod at St. Paul.

Mrs. Joseph Grenawalt spent Thursday with her father, who is seriously ill at Hancock.

Rev. O. J. Kvale returned on Friday morning from ten days' stay at Minneapolis and St. Paul.

The many friends of Miss Ethel Compton, who has been spending the last three weeks at Méroy Hospital, will be pleased to learn that she has sufficiently recovered to leave the institution. She will spend some time recuperating, with friends at Beloit, before returning to her home.

Mr. and Mrs. Oscar Loftus of Broadhead visited at the home of Mrs. Loftus' father, Nels Ringen, on Thursday afternoon.

Mrs. Will Eason of Evansville is spending some time in the village, a guest at the home of her mother, Mrs. J. Jacobson.

## Snakes in Mexico.

Tropical countries are always popular resorts for snakes. Mexico has a number of striking species. It is particularly necessary for travelers to be aware of their presence not only for themselves, but for the sake of their horses and mules.

SATISFY!

# Side Lights on the Circus Business

By D. W. WATT

Former Manager Burr Robbins and Later Treasurer of Adam Forepaugh Circuses.

(Copyrighted.)

It was in 1884 or '85 that the Adam Forepaugh show came west, and from the time of the opening of the show in Philadelphia, workingmen were scarce in every department, and more especially on canvas, where the work was considered the hardest. The boss canvasman had to hire extra help in almost every town, get the show up on time in the morning, and then in the afternoon to settle a matter that he knew more about than anyone else with the show. So it is with many men well up in the business. They commenced their career with the smaller shows, and if they were in the right material, they never failed to work up to the large shows, which also meant to a larger salary.

William Murray, the boss canvasman with the Sells Floto Show, told me two or three years ago, patented a device for loading and unloading the large canvases with the show. I met a friend a few days ago, who had been in the show business for some years and was in Burlington and Davenport, Ia., when the Sells Floto Show exhibited there last week. His curiosity was to see Murray's new canvas loader, which he did. He said it was the greatest labor saving device that he had ever seen. The work is all done by a small gasoline engine which is attached to the big canvas wagon. The canvas is folded as the gasoline engine started, the work is soon done.

He said that Jess Willard and Frank Gotch were certainly good features with the show. He said that at Davenport, both afternoon and evening, they turned away people.

Fred Hutchinson, a nephew of the late James A. Bailey, is the acting manager of the show and has been for some years.

On May 9th, when the Barnum & Bailey Show was exhibiting in Washington, D. C., President and Mrs. Wilson, accompanied by their daughter and son-in-law, Mr. and Mrs. McAdoo and a large party, were guests of the show. The president enjoyed the show and the entire party remained for the Will West concert.

On May 3rd, the A. G. Barnes Show, which exhibits here June 9th, experienced its first serious accident of the season. While making a run from Fallon, Nev., to Susanville, Cal., the engineer of the circus train failed to notice the block signal at a crossing of the Western Pacific. A detour switch was open, and the engine and one show car turned turtle. As usual on any occasion of importance, Professor A. G. Barnes, Al. Sands and Superintendent Charles Cook, caught up the circus and got it back on its feet. The accident had over 200 men on the spot in less time than it takes to write it. There was very little damage to the show property and no fatalities.

On Friday morning of this week car No. 1 of the A. G. Barnes circus arrived over the Northwestern road at Susanville. The circus was led by Harry Davis, who had in charge eighteen bill posters. Five teams to do the country billing were on hand and in less than half an hour they were all started to bill the country for a distance of twenty-five miles around Harry Davis has been with the Barnes Show for five years, and is well up in the business, especially that of the advance and has a system for his work that runs like a clock.

The show, since starting out, has added some new features, one being a automobile band wagon which leads the parade. The parade is an open den for performing animals.

Mr. Barnes, not to be outdone by the Sells Floto Show, has added Fred Hutchinson, the heavy weight who is matched to fight Jess Willard on Labor Day, and is said to be a great attraction with the show. The show will exhibit in Rockford on the sixth of June, Freeport the seventh, Beloit the eighth, Janesville the ninth, Madison the tenth, and Milwaukee the eleventh and twelfth.

Although it is practically a new show to this part of the country, it stands out alone as being the greatest animal circus in the world. The papers that they are putting on the billboards and hanging in store windows are as good as any I have ever seen in the business.

## Whitewater News

ALVIN PARISH ATTACKED BY RAGED BULL YESTERDAY

Whitewater, May 27.—Alvin Parish was attacked by a bull yesterday morning and was badly injured. His side was torn and a rib fractured. He luckily escaped more serious results.

Mr. and Mrs. Albert Young, who were visiting the Kensington yesterday afternoon and evening, today Mr. and Mrs. Young leave for their cottage at Lake Umbagog, where they will spend most of the summer.

Last year about this time mention was made of the school record of Leslie Engel. At this time another year is added to that record, and now he has gone three years without being absent (or tardy), a wonderful record for a 12 years old and living a mile and a half from school. His mother says sometimes he has gone when he really wasn't, but he has been in the interest in school work and his eagerness to complete the three year record got him there. He attends the Cloverdale school, south of town, Miss Mary Allen, principal.

Memorial Day exercises will be held here Tuesday afternoon. A parade will form at the city hall at 1 o'clock, and proceed to the park, where the Memorial day address will be delivered by Hon. J. M. Clancy of Stoughton. In case the weather is stormy the program will be held in Bower Opera House. On Monday the graves of all deceased civil war veterans will be decorated in readiness for Memorial Day.

Mr. and Mrs. Henry Brandt of Elk River, Minn., were here yesterday for a short visit. They returned home last evening, taking their daughter, Ethel, and Miss Slater of the normal school, with them for the week end.

John Stromberg died at the home of his daughter, Mrs. C. A. Gunnerson, on Milwaukee street. He was ninety-one years of age and was one of the oldest residents of the county.

Elise Mills was taken to Milwaukee Friday to have her arm examined by an X-ray.

John Ward left this morning for Waukesha to take the mud baths for rheumatism.

Mrs. George C. Watson died suddenly at her home on Prince street, Tuesday noon. She had apparently been feeling as well as usual during the morning and her sudden demise was a great shock to her many friends.

Mrs. Watson was seventy-five years of age. She was born in New York in 1841. The funeral was held at the home at one-thirty o'clock today.

The Girls' Grammar Athletic society held a picnic at Palmyra today and sixty of them were present. They were in charge of Miss Winslow.

# NEWS NOTES from MOVIELAND

66 DAISY DEAN

Known as "The King of the Comedie Opera Stage," Frank Daniels is now enlivening moving picture fans by his droll antics, peculiarly subtle comedy, and plausible facial contortions.

It was as "Peck's Bad Boy" that Mr. Daniels first came into the public eye, and from that time his has been a continued stream of success. He has appeared in "The Belle of Brittany," "Omoo Khayyam," "Hook of Holland," and "Sergeant Brue."

Equally effective has been his work on the screen. As Mr. Jack in "The Escapades of Mr. Jack," as "Crooky," in the convict comedy of the same name, and in his laugh provoking comedies, "What Happened to Father," Mr. Daniels has established himself firmly in the hearts of screen fans.

## NORMA TALMADGE IN "GOING STRAIGHT."

"Going Straight" is the title of the new Norma Talmadge picture which will be released in June. The drama aims to solve the problem confronting a respectable man who has a criminal past to live down. Miss Talmadge is the wife of the man, played by Ralph Lewis, and Eugene Pallette, a crook who lives by blackmailing his former partner.

Bernard McConville, the author, has provided a scenario that indicates great dramatic strength. His crook, Jimmy Briggs, recognizes in John Remington his former pal of many a dangerous and rugged life. Remington's wife was also a member of the gang but both are going straight when Jimmy comes into the life again. Jimmy backs up the size the contrast between the old life of the Remingtons and the new. The elements of suspense is said to be well developed in the action.

"Going Straight" is the fourth picture since she went to the coast. "The Missing Link," "Martha's Vindication," and "The Children in the House" were the earlier releases.

Virginia Pearson, the star of "Blazing Love," has carried her silhouette far farther than ever. In addition to wearing silhouette beauty spots of her friends, she now has a silhouette of her stockings and a silhouette handkerchief, which may be taken liberal action, which may be the purpose for which she invented them.

## Amusements

(Notices furnished by the theatres.)

### AT THE APOLLO.

The Giant of Cabiria in a Comedy. Did you see "Cabiria"? If you didn't, you have missed a real treat. The picture is a comedy, but it is so funny that it is almost a tragedy. It is a story of a man who is so funny that he is almost a tragedy. It is a story of a man who is so funny that he is almost a tragedy. It is a story of a man who is so funny that he is almost a tragedy.

### AT THE APOLLO.

"The Race" on Monday Night With Victor Moore. Victor Moore, who recently created such a sensation in the Jesse L. Lasky production of "Chimmie Fadden Out West," will be seen at the Apollo on Monday in "The Race," supported by Anita King, the Paramount girl, and an excellent Lasky cast.

"The Race" is a thrilling drama founded upon Miss King's recent transcontinental motor trip, which she made absolutely alone from Los Angeles to New York City.

Last summer, Miss King, who is an enthusiastic motorist, was convinced that she could make the long transcontinental drive in an automobile, unattended. On September first she left the exposition grounds at San Francisco, carrying messages from the mayor of that city to Mayor Mitchell of New York.

It took this brave young woman forty-nine days to complete this journey—twenty-nine of these days it rained continuously and she had to battle through the mud over the major portion of the trip.

While crossing the state of Nevada she lost her way. Her car became mired in the mire and in trying to dig it out her shovel broke. She was

### AT THE APOLLO.

Vaudeville Tonight and Sunday. Paul Herbert Schmidt, baritone soloist on the vaudeville bill at the Apollo tonight and Sunday, is well known in and about Janesville. He has sung here at different times. Those who have heard him sing, state he has a remarkably fine baritone voice.

A miniature musical comedy with eight people heads the bill. They present a snappy little sketch entitled "The Freshman," the Barnum & Bailey Trio and D'Armo & Marguerite make up the balance of the bill.

# MYERS THEATRE

## TUESDAY NIGHT

7:30 and 9:00

### The True Life History of The Dalton Boys

Western outlaws in three reels showing their world famous double bank robbery at Coffeyville, Kans., Oct. 5th, 1892, as it actually happened. Produced by Emmett Dalton the only living member who personally lectures the pictures. Nothing to mislead the young or repel the old.

## WEDNESDAY

### The Hatfield-McCoy Feud

Of West Virginia and Kentucky featuring old devil Anse Hatfield, the world's most noted feudist. Also two good reels.

5-Reels-5 Admission 10c.

## AT BEVERLY THEATRE.

### Theatrical Boarding House in "The Last Act."

The presentation of a typical theatrical boarding house in New York's Times Square region is a feature of the new Triangle-Kay Bee picture, "The Last Act," at the Beverly tonight.

In the earlier scenes of this play Bessie Barriscale, the heroine, is seen as an ambitious but unsuccessful young actress whose weary feet have trudged the hard stones of Broadway for many a day, looking in vain for an engagement. At night there is the notorious boarding house dinner, followed by the cold comfort of a hall room on the top floor.

The types of the theatrical world are seen in the various episodes that transpire in the boarding house. There are the young people full of hope and looking forward to "careers," there are the older thespians, who have toiled season after season, and find themselves in their declining years unwanted and staring poverty in the face.

The comedy is Matt Swain in "His Auto Ruination."

## AT BEVERLY THEATRE.

### A Romance of Early Louisiana.

A thrilling story of the time when Louisiana was a French colony and girls were sent across the water to be sold to the colonists for wives is told in "Daphne and the Pirate," which brings Lillian Gish forward again as a Triangle star at the Beverly theatre on Sunday. William Derr, former Broadway leading man and now the husband of Marie Doro, is the hero of the romance and heads a strong Griffith supporting cast which includes Ward Long, Howard Gaye, Lucille Young and Richard Cummings. The costumes of the period lend splendor to the production and there is a realistic fight at sea between a pirate crew and the officers of the king's navy conveying a cargo of girls to America. Ford Sterling will also be seen in a cameo.

## AT MYERS THEATRE.

Lee Wilson Dodd, the young playwright who wrote "His Majesty Bunker Bean," which will be seen here at Myers theatre for one performance on Tuesday evening, June 6, has had several successes to his credit, the most recent one being "Speed," which ran several weeks at the Comedy theatre.

in New York. He has made his play from the novel of the same name by Harry Leon Wilson, which was published as a serial in the Saturday Evening Post. Taylor Holmes will play the leading character of Bunker Bean. Joseph Brooks, the producer, has assembled a capable supporting company which includes, besides Taylor Holmes, Charles Abbe, Florence Shirley, Robert Kelly, Jack Devereaux, Lillian Lawrence, Walter M. Sherwin, Marion Kirby, Clara Louise Moore, Harry C. Power, Horace Mowbray, Grace Peters, John Hogan, Belford Forrest, Annette Westday and George C. Lyman.

This delightful American comedy comes to Janesville from a triumphant six months' run at the Cort theatre, Chicago. Mr. Holmes and every member of the original cast will be seen in the performance here.

Janesville theatregoers are indeed fortunate in being able to see this unusual attraction this season and particularly so as the cast is absolutely the same, without change, as seen for nineteen weeks at the Cort theatre, Chicago.

Spring time is moving time. If you have a house to rent, let it be known through a Gazette want ad.

## WOMAN'S PAGE

## Heart and Home PROBLEMS

—By—  
MRS. ELIZABETH THOMPSON  
Letters may be addressed to  
MRS. THOMPSON  
in care of the Gazette.

Dear Mrs. Thompson: (1) When being introduced to a person and he says he is pleased or glad to meet you and repeats your name, what should you say in return?

(2) I am going to take quite a few excursions this summer and am afraid that I will be seasick. Do you know of any remedy to prevent seasickness?

(3) I am sixteen years old and working in an office doing bookkeeping and typewriting and can speak German and Swedish freely and am now taking up Spanish. Do you think they will be of any help to me in my future years of work?

(4) I never went to any business college, and when I went to work in the office I knew very little about the work, but I was very well in my work, my employer says. Do you think in a few years from now that I will be successful as I like the work very much and take a lot of interest in it?

SENIORITA ANITA.  
(1) Repeat his name and shake hands if you want to; or just say, "How do you do?"

(2) It sometimes helps to chew gum or suck the juice from a lemon.

(3) The possibilities of South American trade make Spanish valuable. You might also be able to use the other languages, but the chances are not so great.

(4) You will be successful if you are accurate, spell correctly and work intelligently.

Dear Mrs. Thompson: I will be very thankful if you will publish the remedy for blackheads—the one with ether in it.

ANXIOUS.  
A bronze paper knife or paper weight would also make an attractive gift. (6) Send roses or peonies. A dozen peonies would make a beautiful bouquet. Unless roses are large, but water, using a complexion or

other soft brush. After wiping, apply the mixture to each of the spots and let it remain on over night. Wash off in the morning with hot water. Continue until the spots have disappeared. Then twice a week wash the face with this mixture, removing the liquid at once by rinsing with clear water. If there are large pores, wipe over each with a little alcohol.

Dear Mrs. Thompson: (1) Last year when I was a senior in high school I was on intimate terms with a junior girl. After commencement I left home on business and did not get home except at intervals of several months. During that time of course we exchanged numerous love letters, until finally we lost interest in each other. I asked her to return to me the letters I had written her and she said she would return those she had written. She declined to do so, saying that we were as good friends as ever. I knew that was not so. Don't you think she ought to be as glad to get her letters back as I would be to get mine?

(2) Ought I send her letters back first?

(3) She gave me a fine gift for commencement. Ought I return one this year to her? I consider her a friend.

(4) I received a number of nice gifts last year from this year's graduates. What would you suggest as being inexpensive and appropriate but that my friends would appreciate for gifts?

(5) Would it be all right to send a college girl flowers for graduation? If so, what kind and how many?

THANKS.  
(1) I should think she would be glad to have her letters back and winning, out of courtesy, to return yours.

(2) If you are very anxious to have your letters back, send hers and she may feel obliged to return yours.

(3) Do not send her a gift. It might give her reason to think that you care as much for her as you used to.

(4) Girls like books as well as anything and they are not expensive. A bronze paper knife or paper weight would also make an attractive gift.

(5) Send roses or peonies. A dozen peonies would make a beautiful bouquet. Unless roses are large, but water, using a complexion or

two dozen are necessary.

WHAT EATS UP THE TIME

How the woman of a century ago managed to bring up eight or ten children (besides the three or four that she bore and lost in infancy), do all her housework, make all the clothes for the household and perhaps do the weaving and still have time to keep voluminous diaries and read the novels is a perennial mystery to the woman of today.

With three or four children and all the modern conveniences in her home, she is apt to find herself overtaxed unless she is one of the eight per cent who keep a helper, and even then she wonders where all her time goes to.

The other day I caught a glimpse of one of the thousands of answers that could doubtless be made to that question. It was a mummy. The answer was on the feet of several mummies. It took the form of white shoes.

To wear those white shoes on such a day meant the expenditure of much time and energy before they would be clean again.

Little Drops of Water, Little Drops of Soap, Little Drops of Time. That's just a small thing, but it's typical of many small things that in the aggregate make a deep dent in twenty-four hours a day.

JAS. SUTHERLAND & SONS

ACTRESS WHO VOWED NEVER TO WED  
AGAIN WILL MARRY ADMIRAL'S SON

Julia Sanderson.  
When Julia Sanderson, actress, divorced Ted Sloane, jockey, some years ago, she announced solemnly that she would never, never marry again. Now comes the announcement of her engagement to Bradford Barnett, son of the late Admiral W. G. Barnett, U. S. N.

## Marrying a Butterfly

"Look, there is a big touring car drawn up by the side of the road," said Ethel Gordon, leaning forward in the buggy in which she was riding. "Don't stop near them. I am ashamed of this turnout."

"Well, I like that," snorted her husband. "Where shall we go? There are no more woods."

"Oh, right on," answered Ethel. "A man of the party is coming to the automobile. I will decide where to go after we get by them."

Grudgingly was preparing to follow her commands when a resounding "Hello, there!" caused him to draw the reins.

"That must be the man, coming up to the buggy," it couldn't be possible for two people to look so much alike.

Ethel flushed and extended her hand. Why, Jack Forsyth, where did you drop from?" she asked in surprise. "This is my husband, Mr. Gordon," she continued, presenting Ralph.

"So you are married, too? It seems to me I did hear about it, but I had forgotten it. Come and meet my wife."

"Why, began Ethel lamely, "No excuses now. This is too good a streak of luck to let slip. Where were you going?" I hope you have nothing you must do for an hour or two," he continued enthusiastically.

"We have just stopped here for a moment, and you simply must join us. Do you live around here?" He simply rained questions on the surprised pair.

"We were out for a breath of air and brought our lunch along," said Ralph. "There is a short distance from here."

"(To be continued.)"

HEALTH TALKS  
By WILLIAM BRADY, M. D.

Letters may be addressed to Wm. A. BRADY, M. D., in care of the Gazette

NUTRITION HINDERED BY TAKING THOUGHT.

"For ten years," writes a business-man, "I have been a victim of gastrointestinal neurosis. I have consulted many specialists and visited various sanitariums and health resorts, taken all sorts of non-medical diets, and without permanent benefit. Some months I feel a little better, but I soon relapse. I have to neglect my store a good share of the time."

"My diet seems to be the cause of my trouble. Meat, sweets, meats and certain starches and fats seem to disagree with me. Eggs disagree, and milk usually does, too. Test meals have proved that it takes from ten to twelve hours for food to leave my stomach. There was an excess of hydrochloric acid found present. The stomach was dilated two inches below normal level."

"I take little exercise. I ache all over and feel tired and exhausted, sleep poorly, and am constipated except when I take a cascade liquid. My diet is, chiefly, toasted bread and butter, white of egg poached lightly, shredded wheat, grape nuts, a few prunes and occasionally butter beans. I eat two meals a day."

"Being a druggist, I don't monkey with medicine, except occasionally a dose of essence of pepsin after meals. Now, for the love of heaven, can you advise me what to do next?"

Assuming that the unfortunate man has had a reasonably careful examination to exclude organic disease, and that the term "gastro-intestinal neurosis" is just the doctor's way of expressing the belief that the symptoms alone is accountable for all the symptoms—a very probable state of affairs—the best thing he can do is to find an occupation. Something which will occupy his mind, rouse the spark of enthusiasm, keep him worried about making both ends meet and leave him no time for idling. He needs a job of real work, physical and mental. He needs some one to

abuse him, to amuse him, to enthrall him. He needs to adopt a brace of sympathy and practicality, the fact that fear, worry, rage and other unpleasant emotions will absolutely stop all digestive processes in the healthiest individual. Think what happens to this poor fellow when he sets that much worried mind of his at worrying about the digestion of his grape nuts and other pap. Why, his diet is enough to make him sick-a-bed! It is a fit ration for a brown leghorn. What the man requires is a course of psychological manhandling. He has mollycoddled himself into a state of chronic worry. The "occasional dose" of essence of pepsin after meals! The tale—an absurd one, if it were not so serious for the man.

Professor Cannon, of Harvard Medical School, has demonstrated experimentally and practically, the fact that fear, worry, rage and other unpleasant emotions will absolutely stop all digestive processes in the healthiest individual. Think what happens to this poor fellow when he sets that much worried mind of his at worrying about the digestion of his grape nuts and other pap. Why, his diet is enough to make him sick-a-bed! It is a fit ration for a brown leghorn. What the man requires is a course of psychological manhandling. He has mollycoddled himself into a state of chronic worry. The "occasional dose" of essence of pepsin after meals! The tale—an absurd one, if it were not so serious for the man.

## GINGLES' JINGLES

## THE BACK HOME NEWS.

Not until you have beat it from Homeburg for good, not until among strangers you roam, do you fully appreciate, well understand what it means to receive from back home the old weekly newspaper welcome—indeed, is the back home news fresh from the sod, where we know all the folks, and the lay of the land—every inch of that country we've trod. Some old guy has shuffled, another hooked up, we get the stuff all in the news, some widow has copped a young coot with the coin—another is listed to loose; some geese's old ramshackled rig has collapsed, some heir pulled a silver and rocks, the gas route got 81 in the city today—he's speeding back home in a box. And thus we keep posted on all that transpired, we're wise to all happens at home, each line of the news, all the locals and ads are listed for keeps in our dome. We know Hezekiah slipped one over Ned, when he swooped him that pacer for Nell; that widow McGinnis has bought a new suit, and the Joneses have drilled a new well. The back home news editor grabs all the dope, there's nothing that he does not spear, we reel off the columns on home stuff each week, and all for one-fifty a year we hear — just a bone and a half for a

LEWIS J. SINGLE

CAMELS AND ELEPHANT BEING USED IN LONDON.

(BY ASSOCIATED PRESS.)  
London, May 27.—Owing to the scarcity of horses in Sheffield a big mercantile establishment hit upon the scheme of yoking two camels and an

elephant to a dray and found the experiment so successful that the outfit is a fixture on the city's streets. The animals jog along easily with a load ten tons doing the work of eight horses.

Better Than Glass Crystal.  
A watch crystal of celluloid or other equivalent elastic transparent unbreakable material which in practice is sprung into an undercut groove or rabbit in the watch bezel, reduces the initial cost to the manufacturer and avoids the cost of replacing broken glass crystals by the user.

PIMPLES ON FACE  
ITCHING INTENSE

Began Getting Bigger. Large, Hard and Very Red. Scattered Over Face. Had to Scratch.

HEALED BY CUTICURA SOAP AND OINTMENT

"I noticed that my face was covered with pimples which began getting bigger. They were large and hard and were very red and I had to scratch them and they formed like a ball under the skin. They scattered all over my face and the itching was so intense that I had to scratch my face so much it bled."

"The trouble lasted about a month and I used many tablets, but they did not do any good. I noticed a Cuticura Soap and Ointment advertisement so I thought I would try them. The next day I saw the pimples were going away and I used two cakes of Cuticura Soap and three cakes of Cuticura Ointment and I was healed." (Signed) Eugene Vost, 7123 Tremont Ave., St. Louis, Mo., Oct. 3, 1915.

Sample Each Free by Mail  
With 32-p. Skin Book on request. Address post card "Cuticura, Dept. T, Boston." Sold throughout the world.

ATHENA UNDERWEAR

For daintiness, comfort and wear ATHENA Underwear is matchless.

Women find that it is made to fit them exactly, without being stretched into shape and with no unnecessary and annoying folds of fabric at any point.

The shoulder straps stay in place, there is just the right fullness over the bust and at the hips, and the perfect fit at the waist prevents wrinkling under the corset.

The patented seat and non-strain gusset provide ease and comfort to be found in no other undergarment.

ATHENA Underwear is sheer, cool and dainty.

All sizes and qualities, at the prices you have been accustomed to pay.

## THE GAZETTE'S MOTORIST PROBLEM DEPARTMENT

(Published Saturdays.)

**Motoring Department, The Gazette.**—I have a new four-cylinder Chevrolet car. At a speed of seven to twelve miles, when either picking up or slowing down, it begins to jerk and seems to lose power. At times, with this exception, car runs well. There is also a hissing sound in engine at times. The service men told me this was caused by fan belt, but it does not seem to be in belt, but in engine. They worked a half day on car, but it jerks as bad as ever. What may be the cause?

**The symptoms indicate a leak in the intake manifold that affects the power at low speed, but does not at high speed. Look at the gaskets and see if they fit properly, and seal them well when putting back the carburetor.**

**Motoring Department, The Gazette.**—I would be pleased to have you give me the following information in your columns: Is it necessary to have distilled water put in a storage battery? Would not other water do as well, and how often should it be filled with water?

**Would it be possible to keep a storage battery in a car all summer without having it recharged, if it was used only occasionally and did not burn out, without injuring it in any way?**

**I have a primer on the dash and have been filling this with kerosene once a week and cleaning out the engine. Would it be possible to use kerosene in a storage battery instead of distilled water?**

**It is necessary to use distilled or fresh rain water because ordinary well water or spring water contains soluble salts that, although invisible will ruin the battery. The cells should be examined every two or three months, and the necessary amount of water added to keep the plates covered.**

**The battery should not stand more than one month without being recharged. Kerosene may be used instead of distilled water, but may not give as good results.**

**Motoring Department, The Gazette.**—Will you kindly advise me if a car with an underslung frame has less side swing and steers easier than one with running gear on top of the frame?

**The writer is not in a position to advance information on this point. There are a few cars using the underslung type and undoubtedly it has its advantages. The makers of the underslung type cars can better advise you as to the reasons for their construction. To discriminate would not be just.**

**Motoring Department, The Gazette.**—How can a weak coil be strengthened? A weak coil cannot very well be strengthened. The coil you have is probably defective and in need of repair. Return same to makers for overhauling.

**Motoring Department, The Gazette.**—I have a car, which used to travel sixty miles per hour, but lately cannot seem to go over forty-five. She speeds up to forty-five very quickly, but although I think I am going considerably faster than that, the speedometer never indicates this. The engine is in perfect condition, and it has occurred to me that possibly something went wrong

with the speedometer. I notice that the small gear is rather loose on the shaft. You should replace the small gear on the speedometer. These gears are usually made of softer material than the large gears in order to eliminate noise. Replacement will be inexpensive. If you

**REPAIR HINTS.** Because oil has a disintegrating effect, not only on rubber, but on cotton and fabric as well, care should be taken to see that the wiring for electric lighting and engine starting system is well protected. If oil is permitted to remain on the wiring the insulation will in time be softened so that the slightest chafing will cause the bare copper to be exposed and a short circuit or a leakage of current follow.

**When a motor is hot care should be taken not to pour cold water into the cooling system too rapidly. When the cold water strikes the overheated cylinders it is very apt to crack same, due to the rapid contraction which takes place.**

**When the proper oil level in the crank case is determined the installation of a drain cock in each compartment will enable the operator to keep his oil at a fixed level. This is no expensive installation and may obviate considerable trouble.**

**A cause of fan breakage that is rather common is the running of the fan when considerably out of balance, which results in setting up stresses that the sheet metal often will not withstand. If a fan does not turn true it should be repaired by bending back into position the blade that has been bent or bringing the chromium-plated wire or band into shape if it has been distorted. When a fan runs unbalanced, it causes a fast running fan, if much out of balance, will set up a noticeable vibration, which is hard on the fan bearings as well as the fan itself.**

**Small particles of metal in the bottom of the crank case, and small pieces getting into the oil pump, if one is used, may interfere with the action of the check valve. The screens necessarily are of rather coarse mesh and good size particles may pass through. Draining the oil occasionally and washing the case is advisable.**

**Small particles of metal in the bottom of the crank case, and small pieces getting into the oil pump, if one is used, may interfere with the action of the check valve. The screens necessarily are of rather coarse mesh and good size particles may pass through. Draining the oil occasionally and washing the case is advisable.**

## STEEL TRUST HEAD SEES U. S. IN LEAD IN BUSINESS WORLD

**Judge Gary Says Government and Industry Must Work in Harmony to Hold American Supremacy.**

New York, May 26.—Declaring that the United States was rapidly becoming the leader among nations of the world and it was "high time for every one to understand that a large majority of the people of the United States will insist upon the utilization of every facility to protect and to honorably further the interests of their own country," Judge Robert H. Gary spoke here today at the annual meeting of the American Iron and Steel Institute on what he considered "momentous questions involving life, liberty and happiness."

"It is likely opportunity will be given to the voters to give expression to their views in the near future, relating to some of these questions," said Mr. Gary. "The large majority have a friendly feeling toward business success large or small, so long as it is decently and fairly conducted."

"We believe in the regulation and restraint of business, but only in such a way as to prevent harm and injury to the public interest."

"The government and the business man should work in harmony in these matters."

"Our export business is large and increasing. The total exports for March of this year were \$411,477,638, an increase of \$114,864,736 over March 1915."

"The markets of the world are multiplying in number, and increasing in importance. We are hoping for open ports in every country. We have heretofore had our proportionate share of this trade. One reason for the limited amount of our export business in the past is found in the lack of ships owned, controlled and operated by Americans. We have been more or less subjected to the domination of foreigners, having the ownership or control of ships, and who are interested directly or indirectly in business competing with us."

"When the present wars are ended,

these conditions will be either worse than they have ever been before, unless there are adopted laws or amendments that will place our merchant marine on an equality with that of other nations."

"We are in favor of peace for our nation, not at any price, but we would if necessary pay liberally for it. We would fight any other nation, but only defensively."

"So anxious are our people to avoid war, they are willing to submit temporarily even to sneers and insults before they will assume an offensive attitude and run a risk of precipitating a war unnecessarily. This is a strong statement, but it represents a real attitude of a large majority of our people."

"If the United States is to assume and maintain in the important position among nations that has been thrust upon her, she must be possessed of the same elements of power and strength that others have. She must be prepared to protect her commerce on the seas. She must be ready to support other nations in the insistence that ports of all foreign friendly nations shall remain free and open to all, and even more important to consider, we would be able to exert a powerful influence in aiding and even compelling international peace."

In closing, Judge Gary said: "This is not intended to be, nor is there any question of politics involved in what has been said, notwithstanding there may be differences of opinion held by persons of different political parties concerning some of the points discussed."

"The steel industry is good, better than ever before. There has recently been publications to the effect there is a falling off of new orders, and this may be true to a slight degree, but daily bookings generally are larger in volume than the total daily production, and as the unfinished orders on hand are sufficient to keep mills busy for the remainder of the calendar year and a large portion of 1917, there is not much if any cause for concern on the part of the manufacturers for the next twelve months at least."

DOINGS OF THE VAN LOONS—There Is a Limit Even for Angeline

BY F. LEIPZIGER

## The TURMOIL

A Novel By  
BOOTH TARKINGTON  
Author of  
"Monsieur Beaucaire," "The  
Conquest of Canaan,"  
"Penrod," etc.

Copyright 1914 by Harper & Brothers

Roscoe had laughed bitterly through-  
out this monologue. "Drunk in busi-  
ness hours! Thass aw! Mus'n do  
such thing! Mus'n get drunk, mus'n  
gamble, mus'n kill 'nobody—not in  
business hours! All right any other  
time. Kill 'nobody you want to—  
long 'tain't in business hours! Fine!  
Mus'n have any trouble 't 'l inner-  
fere business. Keep your trouble 't  
home. Don't bring it to ch' office. Might  
innerfere business! Don't let your  
wife innerfere business! Keep all, all,  
all your trouble an' your meanness an'  
your rud—your tragedy—keep 'em all  
for home use! If you got die, go on  
die 't home—don't die round the office!  
Might innerfere business!"

Sheridan picked up a newspaper from  
Roscoe's desk, and sat down with his  
back to his son, affecting to read.  
Roscoe seemed to be unaware of his  
father's significant posture.

"You know wh' I think?" he went  
on. "I think Bibbs only one the fam-  
ly 'telligence at all. Won't work, an'  
d'n't get married. Jim worked, an' he  
got killed. I worked, an' I got mar-  
ried. Look at me! Jus' look at me, I  
ask you. Fine 'dustress young busi-  
ness man. Look whass happen' to me!  
Fine!" He lifted his hand from the  
sustaining chair in a deplorable ges-  
ture, and immediately losing his bal-  
ance, fell across the chair and car-  
eered to the floor with a crash, re-  
maining prostrate for several min-  
utes, during which Sheridan did not  
relax his apparent attention to the  
newspaper. He did not even look  
round at the sound of Roscoe's fall.

Roscoe slowly climbed to an up-  
right position, pulling himself up by  
holding to the chair. He was slightly  
sobered outwardly, having progressed  
in the prostrate interval to a state of  
befuddlement less volatile. He rubbed  
his dazed eyes with the back of his left  
hand.

"What—what you ask me while  
ago?" he said.

"Nothin'."

"Yes, you did. What—what was it?"

"Nothin'. You better sit down."

"You ask me what I thought about  
Lamborn. You did ask me that. Well,  
I won't tell you. I won't say dan'  
word 'bout him."

The telephone bell tinkled. Sheridan  
placed the receiver to his ear and said,  
"Right down." Then he got Roscoe's  
coat and hat from a closet and brought  
them to his son. "Get into this coat,"  
he said. "You're goin' home."

"All ri," murmured Roscoe, obedi-  
ently.

They went out into the main hall by  
a side door. Roscoe walked out of the  
building without lurching, and twenty  
minutes later walked into his own  
house in the same manner, neither he  
nor his father having spoken a word  
in the interval.

Sheridan did not go in with him; he  
went home, and to his own room with-  
out meeting any of his family. But  
as he passed Bibbs' door he heard from  
within the sound of a cheerful young  
voice humming jubilant fragments of  
song:

Who looks the mustang in the eye?  
With a leap from the ground  
To the saddle in a bound.  
And away—and away!  
Hi-yay!

It was the first time in Sheridan's  
life that he had ever detected any  
musical symptom whatever in Bibbs—  
he had never even heard him whistle  
—and it seemed the last touch of irony  
that the useless fool should be merry  
today.

To Sheridan it was Tom o' Bedlam  
singing while the house burned; and he  
did not tarry to enjoy the melody, but  
went into his own room and locked the  
door.

### CHAPTER XVIII.

He emerged only upon a second sum-  
mons to dinner, two hours later, and  
came to the table so white and silent  
that his wife made her anxiety mani-  
fest and was but partially reassured  
by his explanation that his lunch had  
"disagreed" with him a little.

Presently, however, he spoke effec-  
tively. Bibbs, whose appetite had be-  
come hearty, was helping himself to a  
second breast of capon from white-  
jack's salver. "Here's another dif-

ference between Midas and chicken,"  
Sheridan remarked, grimly. "I reckon  
you overlooked that. Midas looks to  
me like he had the advantage there."  
Bibbs retained enough presence of  
mind to transfer the capon breast to  
his plate without dropping it and to  
respond, "Yes—he crows over it."

Having returned his antagonist's fire  
in this fashion, he blushed—for he  
could blush distinctly now—and his  
mother looked upon him with pleasure,  
though the reference to Midas and  
roosters was of course jargon to her.

"Did you ever see anybody improve  
the way that child has!" she exclaimed.  
"I declare, Bibbs, sometimes lately you  
look right handsome!"

"He's got to be such a gadabout,"  
Edith giggled.

"I found something of his on the  
floor upstairs this morning, before any-  
body was up," said Sheridan. "I  
reckon if people lose things in this  
house and expect to get 'em back, they  
better get up as soon as I do."

"What was it he lost?" asked Edith.

"He knows," her father returned.

"Seems to me like I forgot to bring it  
home with me. I looked it over—  
thought probably it was something  
pretty important, belongin' to a busy  
man like him." He affected to search  
his pockets. "What did I do with it,  
now? Oh yes! Seems to me like I re-  
member leavin' it down at the office—  
in the waste basket."

"Good place for it," Bibbs mur-  
mured, still red.

Sheridan gave him a grin. "Perhaps  
pretty soon you'll be gettin' up early  
enough to find things before I do!"

It was a threat, and Bibbs repeated  
the substance of it, later in the eve-  
ning, to Mary Vertrees—they had come  
to know each other that well.

"My time's here at last," he said, as  
they sat together in the melancholy gas  
light of the room which had been de-  
nuded of its piano. But the gas light,  
though from a single jet, shed no  
melancholy upon Bibbs, nor could any  
room seem bare that knew the glow-  
ing presence of Mary. He spoke  
lightly, not sadly.

"Yes, it's come. I've shirked and  
put it off, but I can't shirk and put it  
any longer. It's really my part to go  
to him—at least it would save my face.  
He means what he says, and the time's  
come to serve my sentence. Hard labor  
for life, I think."

Mary shook her head. "I don't think  
so. He's too kind."

"You think my father's kind?" And  
Bibbs stared at her.

"Yes, I'm sure of it. I've felt that  
he has a great, brave heart. It's only  
that he has to be kind in his own way  
—because he can't understand any  
other way."

"Ah, yes," said Bibbs. "If that's  
what you mean by 'kind'?"

She looked at him gravely, earnest  
concern in her friendly eyes. "It's go-  
ing to be pretty hard for you, isn't it?"

"Oh—self-pity!" he returned, smiling.

"This has been just the last flicker  
of revolt. Nobody minds work if he  
likes the kind of work. There'd be no  
longers in the world if each man found  
the thing that he could do best; but the  
only work I happen to want to do is  
useless—so I have to give it up. To-  
morrow I'll be a day laborer."

"What is it like—exactly?"

"It wasn't muscularly exhausting—  
not at all. They couldn't give me a  
heavier job because I wasn't good  
enough."

"But what will you do? I want to  
know."

"When I left," said Bibbs, "I was  
'ou' what they call over there a 'clipp-  
ing machine,' and that's what I'll be  
sent back to. It's very simple and  
very easy. I feed long strips of zinc  
into a pair of steel jaws, and the jaws  
bite the zinc into little circles. And  
yet I was a very bad hand at it."

He had kept his voice cheerful as he  
spoke, but he had grown a shade  
paler, and there was a latent anguish  
deep in his eyes. He may have known  
it and wished her not to see it, for he  
turned away.

"You do that all day long?" she ex-  
claimed. "No wonder—" She broke  
off, and then, after a keen glance at his  
face, she said: "I should think you  
would have been a 'bad hand at it'!"

He laughed ruefully. "I think it's  
the noise, though I'm ashamed to say  
it. You see, it's a very powerful ma-  
chine, and there's a sort of rhythmic  
crashing—a crash every time the jaws  
bite off a circle."

"How often is that?"

"The thing should make about sixty-  
eight disks a minute—a little more  
than one a second."

"And you're close to it?"

"Oh, the workman has to sit in it  
lap," she said, turning to her more  
gayly. "The others don't mind. You  
see, it's something wrong with me. I  
have an idiotic way of flinching from  
the confounded thing—I flinch and  
duck a little every time the crash  
comes, and I couldn't get over it. I  
was a treat to the other workmen in  
that room; they'll be glad to see me

"Tomorrow I'll Be a Day Laborer."

back. They used to laugh at me all  
day long."

Mary's gaze was averted from Bibbs  
now; she sat with her elbow resting on  
the arm of the chair, her lifted hand  
pressed against her cheek. She was  
staring at the wall, and her eyes had  
a burning brightness in them.

"It doesn't seem possible anyone  
could do that to you," she said, in a  
low voice. "No, he's not kind. He  
ought to be proud to help you to the  
best of his power; it should be his  
greatest privilege to have them pub-  
lished for you."

"Can't you see him?" Bibbs inter-  
rupted, a faint ripple of hilarity in his  
voice. "No. It's just as well he never  
got the— But what's the use? I've  
never written anything worth print-  
ing, and I never shall."

"You could!" she said.

"That's because you've never seen  
the poor little things I've tried to do."

"You wouldn't let me, but I know  
you could! Ah, it's a pity!"

"It isn't," said Bibbs, honestly. "I  
never could—but you're the kindest  
lady in this world, Miss Vertrees."

She gave him a flashing glance, and  
it was as kind as he said she was.  
"That sounds wrong," she said, im-  
pulsively. "I mean 'Miss Vertrees.'"  
I've thought of you by your first name  
ever since I met you. Wouldn't you  
rather call me 'Mary'?"

Bibbs was dazzled; he drew a long,  
deep breath and did not speak.

"Wouldn't you?" she asked, without  
a trace of coquetry.

"If I can't," he said, in a low voice.

"Ah, that's very pretty!" she  
laughed. "You're such an honest per-  
son, it's pleasant to have you gallant  
sometimes, by way of variety." She  
became grave again immediately. "I  
hear myself laughing as if it were  
someone else. It sounds like laughter  
on the eve of a great calamity." She  
got up restlessly, crossed the room and  
leaned against the wall, facing him.

"You've got to go back to that place?"  
He nodded.

"And the other time you did it—"

"Just over it," said Bibbs. "Two  
years. But I don't mind the prospect  
of a repetition so much as—"

"So much as what?" she prompted,  
as he stopped.

Bibbs looked up at her shyly. "I  
want to say it, but—but I come to a  
dead baulk when I try. I—"

"Go on. Say it, whatever it is,"  
she bade him. "You wouldn't know  
how to say anything I shouldn't like."

"I doubt if you'd either like or dis-  
like what I want to say," he returned,  
moving uncomfortably in his chair and  
looking at his feet—he seemed to feel  
awkward, foolish. "You see, all my  
life—until I met you—if I ever  
felt like saying anything, I wrote it in-  
stead. Saying things is a new trick  
for me, and this—well, it's just this:  
I used to feel as if I hadn't ever had  
any sort of a life at all. I'd never  
been of use to anything or anybody,  
and I'd never had anything, myself,  
except a kind of lopsided thinking.  
But now it's different—I'm still of no  
use to anybody, and I don't see any  
prospect of being useful, but I have  
had something for myself. I've had  
a beautiful and happy experience, and  
it makes my life seem to be—I mean  
I'm glad I've lived it! That's all; it's  
your letting me be near you sometimes,  
as you have, this strange, beautiful,  
happy little while!"

(TO BE CONTINUED.)

If you have a rug, a couch or any  
other article of household furniture to  
get rid of, use a Gazette want ad. It  
will surely sell it.

## New Janesville Industry, Farm Tractor Manufacture, Soon To Be In Operation

Engine Has Passed Experimental Stages and Has  
Proven Its Worth and Has Demonstrated Its  
Equal to Any Similar Machine on Farm  
Implement Market

JANESVILLE'S bid for further recognition as a manufacturing and indus-  
trial center of the middle west will shortly be further strengthened by  
the placing on the market of the Janesville Farm Tractor engine, a man-  
ufacturing industry brought to the city through popular subscription  
and the readiness of Janesville labor to give their time gratis to erect a large  
plant on a site made possible of purchase with funds collected. The new  
building is completed and workmen are now engaged in installing the heavy  
power machinery. Active work will commence in the shop next week; the  
assembling of five complete engines, parts for  
which were manufactured at Beloit previous to the  
company's decision to leave the field to come to  
Janesville where substantial overtures were made  
to them by the Janesville Builders' Exchange, a  
combined group of contracting firms, painters and  
decorators, plumbers and architects.

The attention of the Builders' Exchange was  
first brought to the project when information was  
given that the tractor firm was seeking a new  
location. Investigation of feeling towards the  
idea of securing the plant as a new Janesville in-  
dustry found enthusiasm high and a campaign to  
secure the necessary funds to purchase a site and  
erect a building was at once launched.

Janesville business men and Janesville labor-  
ers at once entered into the idea, and through the  
funds and labor donated gratis by them, the con-  
cern was made a possibility here. A three-acre  
site was purchased and the commodious plant is  
now a busy scene as the huge power machines  
are being placed. A carload lot of erecting and  
finishing tools from an old plant at Beloit arrived  
here today. With this shipment practical all  
milling machines, drill presses, grinders, key-  
seaters, shapers and lathes, all power driven, are  
ready for use. The line shafting and overhead  
apparatus will be placed in place. The power  
plant will be installed Monday.

Entire Engine Built Here.  
Aside from a few castings which enter into  
the construction of the tractor every piece of the  
engine will be made at the plant. Orders placed  
during the month of January for raw material  
still to be filled. This has delayed somewhat the  
date set for the output of the first complete en-  
gine to be made ready for active operation, but  
with parts ready for the assembling of five com-  
plete engines it is expected that the delay will be  
somewhat offset with the time spent in erecting  
these tractors.

Experiments with the tractor have demon-  
strated that it is fully able to accomplish all that  
is claimed for it. In this vicinity during the past  
several months outside manufacturers of farm en-  
gines have attempted to secure a foothold through  
practical demonstrations. In many instances the  
machine they used fell down utterly.

Throughout the spring the local product has  
also been given a testing, the most severe that  
could be possible in the county. Pulling one of the  
heaviest three-fast bottom tractor plows on the  
heaviest soil in the county, the machine with ease turned a seven-  
inch furrow on the level and on the rise the fur-  
row was eleven inches deep. The ground in the  
field where the test was made was of a heavy  
clay formation, was wet with moisture and in 1915  
had been sown with corn and cattle throughout  
with their tramping and re-tramping.

Heavy Soil Develops No Obstacle.  
At Cookstown, near Evansville, a tractor sent out by a nationally known  
firm fell down in the attempt to turn fifty acres of sod ground. The Janes-  
ville tractor was sent there to see what it could do. Farmers who have  
turned sod know that it is work and the hardest kind of work. When the  
first acre without a particle of exertion they were no longer skeptical as  
to its possibilities.

Another feature about the engine is  
the small space required to swing it  
about, even with a plow attached.  
Lashing down the steering gear the  
entire engine was swung around time  
in a fourteen foot circle.  
This is of particular interest, and has  
proven an excellent sales point. With  
the steering apparatus arrangement on  
the Janesville tractor it is possible to

is similar to a steam tractor boiler  
but much simpler in construction.

Motor Uses Kerosene for Fuel.  
The use of kerosene as fuel is an-  
other important feature of the engine.  
Mr. Townsend has perfected his en-  
gine to develop as much power on a  
gallon of kerosene as on the same  
quantity of gasoline. This latter oil  
however, enters into the starting of  
the tractor. It is used for priming  
purposes, but once started the ker-  
sene is quickly and easily brought in-

to the cylinders.

The power plant consists of a two-  
cylinder, moderate speed, four-cycle  
horizontal governor engine. It is de-  
signed to carry a continuous, heavy  
load such as is generally required of  
any tractor while plowing or in heavy  
belt work.

The tractor has already been put to  
various uses in southern Wisconsin.  
Over in Green county private inter-  
ests are operating the machines in the  
building of highways, and reports  
from that locality characterize them  
as doing the work of six teams daily.

They are also being used in other  
farm work and can be utilized to run  
threshers and even the heaviest of  
farm machine shop power tools.

The transmission is made up of  
wide-faced carry gears and large shafts  
running in liberal plain babitted bear-  
ings that can be easily refilled in the  
field. Only two gears and two pin-  
ions are subject to common wear and  
these are enclosed to prevent excess  
wear due to dust and sand. Now  
speed forward and reverse has been  
sufficient on this machine for gen-  
eral use. The engine has plenty of  
power and is equipped with a simple  
device for changing its speed at any  
time, making a complicated speed

change unnecessary.

Years' Work Developed Type.  
The outfit has been thoroughly de-  
veloped in all kinds of work, in the  
hands of men affiliated with Mr.  
Townsend with years of farming and  
operating such machinery who have  
carefully studied its wide range of  
usefulness. The engine develops a  
steady motion and is provided with a  
wide-faced friction pulley driven di-  
rect from the crankshaft, using no  
extra gears or couplings. Mr. Town-  
send and the men who are putting  
the machine on the market have tak-

ings in alignment at all times. This  
is of vital importance to prevent fast  
wear and overheating. The radiator  
carries several days supply of cooling  
water and is very durable and is eas-  
ily cleaned. In general the outfit is  
neat and easy to handle by a single  
operator, who at all times can control  
his engine and his plows.

Plant Means Much to City.  
Janesville people are watching with  
interest the result to their project in  
bringing the plant to the city. They  
are banking much on this particular  
industry, at the same stage now that

transmission unnecessary.

PULLING THROUGH HEAVY SOIL TURNING 7-INCH FURROW.

The tractor was given a severe testing a month or more ago at the J. M.  
Huginn farm on the Beloit road. It withstood the trial to the satisfaction  
of the men behind the company and also showed a hundred or more farmers  
what it really could do. The possibility of reversing the apparatus in a four-  
teen foot circle to plow the back row is a feature few other machines on the  
market can accomplish.

en much care and spend considerable  
time with the governor arrangement  
in view of producing the best possi-  
ble stationary engine for threshing,  
shredding, ensilage cutting. The en-  
gine is light through a simpli-  
city and extremely small number  
of parts, which permits the necessary  
parts to be made strong enough to  
withstand the heaviest strains with-  
out bringing on an excess weight.

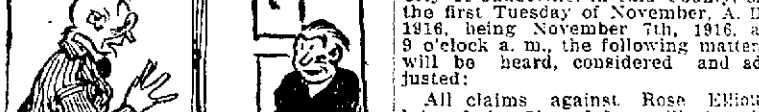

General construction is very sim-  
ple. The frame is perfectly rigid in  
all ways, which is sure to keep parts  
from working loose and shaft bear-

the automobile was ten or fifteen  
years ago. The particular features  
which predominate in this engine are  
matters of interest to other tractor  
manufacturers, the radical departures  
from common construction in farm  
tractors being regarded with keen in-  
terest.

The machine has already proven its  
worth and with the type of business  
men backing the concern is certain  
to make great strides on the farm im-  
plement market being a particular  
Godsend to the small farmer of this  
section of the west particularly.

## Dinner Stories

One afternoon, just as Dr. Bundy's  
office hour had begun, a very excited  
individual rushed into his office.

"Doctor, doctor! Just one mo-  
ment!" he cried.

"I'll see you shortly," said the doc-  
tor.

"Only a second, doctor!" protested  
the perturbed one. "Only a second is  
what I want!"

"I'll see you shortly," repeated the  
physician, with impatience.

The man, with a sigh, took a seat  
in the reception room. His excite-  
ment soon subsided, apparently, and  
he read the magazines lying on the  
table, making no further efforts to  
see the doctor.

After several patients had consult-  
ed the doctor, the latter stepped over  
to the man, and heard:

"Oh, nothing now," replied the man.  
"I only dropped in to tell you that  
your neighbor's cows have escaped from  
the yard and are having a fine  
time among your flower beds."

"I notice," said the genial agent,  
"that your office boy spends a great  
deal of time sharpening pencils.  
Now if you'll let me sell you one of  
our patent pencil sharpeners, the boy  
can put all that time to some other  
use."

The business man seemed mildly in-  
terested.

"Did you happen to notice," he  
asked, "what that boy does when he  
isn't sharpening pencils?"

"No, I did not, but—"  
"When he isn't sharpening pen-  
cils," continued the business man,  
he spends most of his time going to  
the water cooler for a drink. Now  
I'll put it up to you. Do you think it  
would be right for me to deprive that  
boy of the only occupation that keeps  
him from foundering?"

## SHE TOLD HER NEIGHBOR.

"I told a neighbor whose very  
young child had croup about Foley's  
Honey and Tar," writes Mrs. Roy  
Kamp, 2404 Herman St., Covington,  
Ky. "She thought that the child  
surely would die it was so bad. When  
she gave it a couple doses of Foley's  
Honey and Tar she was so pleased  
with the change she did not know  
what to say. This old reliable cough  
syrup immediately helped coughs,  
colds, croup and whooping cough. Just  
as good for old as it is for young folks."  
—W. T. Sherer.

### CLEVELAND BATTERS LEAD THE NATIONAL

Speaker and Granev Topliners With the Stick—Daubert Ahead in the National.

(BY ASSOCIATED PRESS.)  
Chicago, May 27.—Individual playing of Cleveland stars, Tris Speaker and John Granev, according to averages printed here today and including games of last Wednesday, has contributed in no small way to the success of the Indians. Speaker leads the batters of the American league with a percentage of .361 and has scored more runs than any other player in the league, having crossed the plate 25 times. Granev leads the league in home runs with four and in total bases with 84. Slater of St. Louis has caught up with Judge of Washington in stolen bases, each being credited with ten. Washington leads the league in team hitting with .288. The three-hundred hitters of the league, counting only those who have played in at least half the games of their teams are: Speaker, Cleveland, .361; Nunnaker, New York, .357; Miller, Washington, .342; Strunk, Philadelphia, .340; Burns, Detroit, .337; Roth, Cleveland, .328; Hoblitzel, Boston, .320; Cobb, Detroit, .313; E. Johnson, St. Louis, .308; Shanks, Washington, .305.  
The ten leading pitchers of the American league, including those who have pitched in six or more games, and ranked according to games won and lost, with percentages of earned runs made by them, are:

	Won.	Lost.	Game	Percentage
Cumbe, Cleveland	4	0	4.55	
Foster, Boston	3	0	4.00	
Cullop, New York	2	0	4.00	
Morton, Cleveland	1	0	1.00	
Johnson, Washington	3	2	2.18	
Shank, New York	1	0	1.00	
Leonard, Boston	1	1	1.00	
Myers, Philadelphia	2	2	2.00	
Ruth, Boston	2	2	2.00	
Fisher, New York	2	2	2.00	

Jack Daubert of Brooklyn leads the batters in the National league with .353. Carey of Pittsburgh, with thirteen steals, is still in front with stolen

### BOSTON SHOWS HER PREPAREDNESS VIEW

Famous American City Where Liberty Was Born Holds Gigantic Defense Parade Today.

(SPECIAL TO THE GAZETTE.)  
Boston, May 27.—Greater Boston, whose minute men so annoyed the pacifists of 1775, and which is the birthplace of the American doctrine of get-ready, is holding its preparedness parade today. More than 60,000 men and women will be in line, marching through the narrow streets that once echoed the footfalls of the men in homespun who fell in the Boston massacre, who fired from the redoubts of Bunker Hill and who went to the aid of the farmers at Lexington and Concord.  
Lieutenant Colonel Beaumont B. Buck, U. S. A., is the chief marshal, with Major William J. Keville of the fighting Eighth as chief of staff.  
Every member of the house of representatives and the senate will march today, as will many high officials of the navy and members of every profession in the Hub will be in line, including hundreds of prominent lawyers, led by Samuel J. Elder.  
The new Harvard regiment, 1,100 strong, will march with the 17th and 20th regiments, and the 1st and 2nd regiments before they break away for the inter-collegiate meet at the stadium.  
The Ancient and Honorable Artillery will be a feature of the parade, in the ranks of the Minute Men, recalling the days of the Revolution.  
Another feature of the march will be the first public appearance of three newly organized Red Cross base hospital units.  
Every unit of the state militia will march, and besides these will be the society women, who already have pledged their homes for emergency hospital, suffragists, anti-suffragists, business men, fishermen, clam-diggers, society men, at least one son of Col. Roosevelt, actors, sailors, and particularly farmers, to recall the "country" days.  
Every band for miles around has been requisitioned, and 300 marchers from Providence will bring one of their own.  
Boston today may not have the quantity that New York in her parade of the 13th produced, but for quality the committee in charge of the Citizens Preparedness Parade admits it can't be beat.

### DES MOINES RACE TRACK TO BE OPENED TUESDAY.

(BY ASSOCIATED PRESS.)  
Des Moines, May 27.—Plans virtually complete, it was announced today for the opening of the Des Moines speedway on Memorial Day, May 30. Present plans for the opening call for two events—a twenty mile low free-for-all and a Des Moines mile free-for-all. The purse of the Iowa event will be \$1,015, split three ways and prizes totalling more than two hundred dollars have been provided for the Des Moines event.  
Preliminary events will be held in both races. The six men making the fastest mile with a flying start will be selected to race in the Iowa event and in the Des Moines race the five men making the best time for the mile will be chosen.

Mathews' Cribbers easily defeated the New Doty company five last night at Miller's. Gower rolled the high score with 220. Scores:

### CANNOT SEE FULTON AGAINST THE CHAMP

New York Leads in Number of Eligible Players for Amateur Golf Tournament.

(BY ASSOCIATED PRESS.)  
New York, May 27.—In the United States Golf Association list of eligible players for the 1916 amateur championship tournament New York state leads with a trifling over sixty names. Pennsylvania is second with forty-odd and Connecticut third with thirty-nine. Illinois and New Jersey are tied for fourth place with thirty-one each, while Massachusetts, California, Maryland, Rhode Island and Minnesota follow in the order named.  
All told the list comprises players from twenty-one states ranging from the Atlantic to the Pacific coasts and from Nebraska to Florida. While the east predominates, the middle west and the Pacific coast states are well represented, with a sprinkling of eligibles from the southern and Mississippi valley states. The complete list is as follows:  
New York, 64; Pennsylvania, 43; Connecticut, 39; Illinois, 31; New Jersey, 31; Massachusetts, 24; California, 14; Maryland, 14; Rhode Island, 11; Minnesota, 9; Ohio, 8; Michigan, 8; Mississippi, 4; North Carolina, 4; Nebraska, 4; Missouri, 3; Colorado, 3; Washington, 2; Kentucky, 2; Oregon, 1; Iowa, 1.  
Followers of the pugilistic game in the east are rather loath to take the proposed match between Jess Willard and Fred Fulton seriously. Because of the opportunity which was afforded a large number to see both principals in action within a period of a month, a comparison of the respective ring ability of the two heavyweights can be made without injustice to either. Willard in his bout with Moran showed speed, alert and ability to hit with either hand as well as an excellent defense.  
Great interest was evinced in Fulton's debut against Al Reich but at the conclusion the general consensus was that the big boxer from Minnesota was far less experienced than eastern experts had been led to believe. Fulton uncovered a fine left hand jab which he landed almost at will but that was about the extent of

### PERFECT CREW SKETCH.

During a recent inspection of the Housatonic river near New Haven, Rowing Coach Nickalls of Yale discovered a stretch which he stated offered an unsurpassed course for intercollegiate regattas. In commenting upon the possibilities of the course, he writes:  
"At the dam above Derby we found a magnificent spot for any home races we can arrange for. The dam is about five miles long with deep water. The state road runs on one side and the railroad right on the edge of the whole way on the other. The bends are fair, and a perfect course, or set of courses, from four miles down to a mile, can be got. I have seen no better water in the whole of America to build a regatta, as it is airy, fine, smooth, deep water, and an absolutely fair course. Here we may quickly find a solution to our whole boating problem. Yale should be looking forward to running on this water in the near future the biggest regatta in the whole of America. The thing is possible and it would do much to encourage aquatic sports in New England."  
The latter portion of Coach Nickalls' statement has aroused considerable interest and speculation among college rowing authorities. Yale has heretofore found difficulty in securing a suitable course near the university for certain regattas which the Blue would like to stage. Lake Whitney is not large enough and the harbor stretches are subject to weather and traffic handicaps hard to overcome at times. If the Housatonic course proves suitable, races with Cornell, Princeton, Pennsylvania and Columbia are likely to be rowed there in the future, with the added possibility of a much more pretentious regatta such as Coach Nickalls hints at in his comment upon the course.

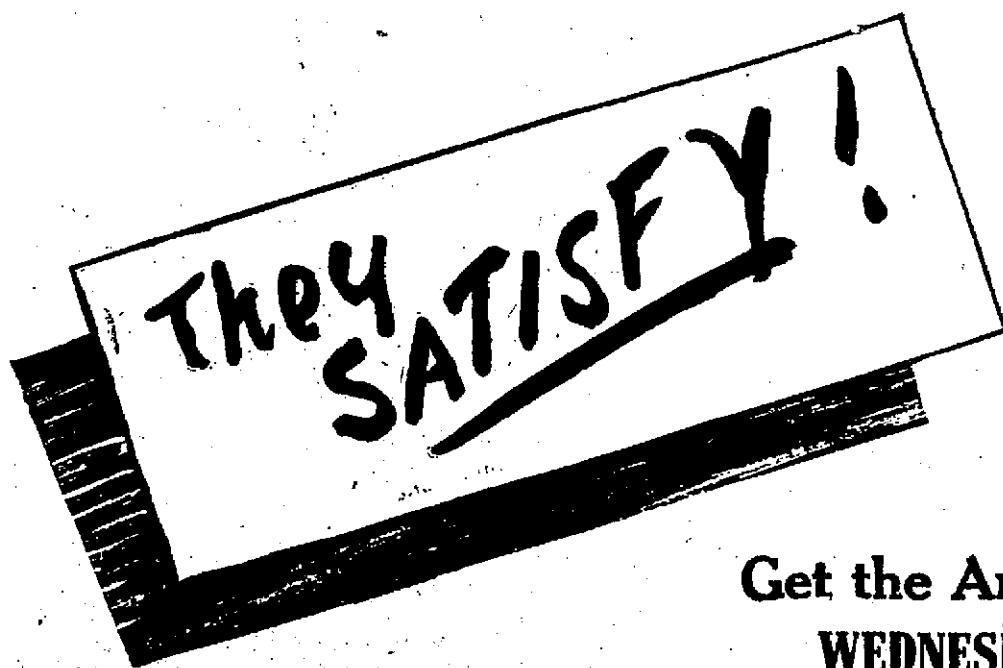

### METROPOLITAN HANDICAP WILL RUN AT BELMONT TRACK NEW YORK TODAY.

(SPECIAL TO THE GAZETTE.)  
Belmont Park, L. I., May 27.—The Metropolitan Handicap, the first big racing classic of the year, will be run over the Belmont Park course here today. This stake is a mile struggle. Fifty-seven nominations have been named, which include most of the tip-top runners that can skim over eight furlongs.  
Roamer, the great Knight Errant gelding, belong to Andrew Miller, has been allotted top weight, the handicapper giving him 132 pounds. Second on the list is Borrow, Harry Payne Whitney's whirlwind finisher, with 127 pounds. Stromboli, which won the Metropolitan and Suburban for August Belmont last season, is weighted with 122 pounds, four more than he carried last year when he ran the mile in 1:39 4-5. The Finn is close to Stromboli, with 120 pounds. The Butler star, Pebbles, is considered good enough to tote 116 pounds if he starts.  
The three year old division includes some speed marvels. According to the scale the young distance runners have, in most cases, to make allowances to their older rivals. The pair that will attract attention if they wear silks are George Smith, the Kentucky Derby winner, and Star Hawk, the imported colt that forced Smith to a nose finish. George Smith is allowed 109, while Star Hawk is in one pound lighter.  
Then there is the highly touted Clapperbill, handicapped at 106 lbs. The weights run down to 90 pounds, given Daddy's choice. The handicaps are so cleverly adjusted that selecting the possible winner is next to impossible.

### MILWAUKEE WOMEN GOLFERS PLANS MIXED EVENTS.

(BY ASSOCIATED PRESS.)  
Milwaukee, Wis., May 27.—Lack of interest of women golfers at the Blue Mound Country club in the organization of a schedule of mixed events for the summer caused the board of directors to forego further efforts in that direction.  
The action of the board meets with the approval of the male golfers who crowd the course daily and reluctantly give up one day a week on the course to women players.

They do what you've always wished one would do—

# TO SELL STOCK OR A STOCK FARM

Insert an advertisement in the Want Ad columns of the Gazette.

You will get better prices for both if you let the 35,000 read-  
ers of the Gazette into the secret that you have such to sell.

The Gazette reaches out to cities and towns all about Janes-  
ville and insures wide publicity to your offer.

If you are not using the Gazette Want Ads when you have a  
farm or stock to sell, we believe you are not getting the price  
you could secure.

MR. FARMER, take this tip and next time, get all you can  
out of the rental of your farm, or the price of your stock and farm.

# Homes of Character

## Your Daughter's Room

If there is one place a girl loves to display her tastes, it is in her room.

Give your daughter the opportunity and her room will be dressed in a way that will appeal to your fancy.

There she can entertain her girl chums, and revel in the pleasure which clean and healthy association brings.

We have the selection of FURNITURE that will enable your daughter to fix up her room in her individual, girlish way.

Surprise your daughter with a piece of our furniture for her room, bringing genuine pleasure and lasting appreciation.

**FRANK D.  
KIMBALL**

## MOVED

Hilton & Sadler, the architects have moved their offices to No. 23 West Milwaukee St., 2nd floor, over Pond & Bailey's, where they will be pleased to meet their friends and patrons. The rooms we now occupy are better suited to our work and we are in a position to give our clients even better service than ever before.

Whatever amount you wish to spend between \$100 and \$1700 will buy you a good lot on which to build

All you have to do is see Kennedy and let him show you some of the lots on his list, which include the best in the city.

**J. E. KENNEDY**

9 W. Milwaukee St., Sutherland Bldg. Both phones.

## VAN POOL'S KNOWLEDGE of BUILDING

Is worth a whole lot to you. He can show you how to save in many little ways that count up when the house is completed. Talk to Van Pool and you'll learn many things about building a house that will prove profitable to YOU.

**E. E. VAN POOL**

17 NORTH RIVER ST. BOTH PHONES

## Electric Fixtures in Stock

I always have a very beautiful stock of electric fixtures on display in my store.

Wiring work done at a minimum cost. Let me quote you prices.

## Home of Character No. 196

A Five-Room Bungalow

### A 5-Room Bungalow (31x37 feet)

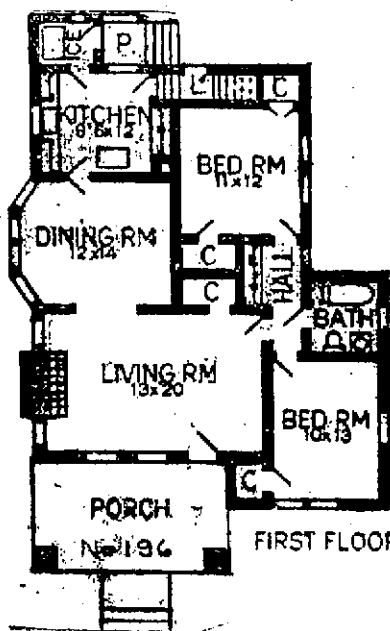

Wide siding or large shingles, with shingle roof, would be most appropriate for the exterior of this design. The chimney should be in rough brick, cobblestone or rough field stone.

The large living room is entered direct from the porch and is connected with the dining room by a wide cased opening. The kitchen has complete equipment with separate refrigerator room and stairway direct to basement, which extends under the rear portion of the house.

The bedrooms and bath open off a well lighted hall, which also contains a large linen closet.

The cost should not exceed \$2500 if built for northern climate. In the south or west this design could be built for considerably less.

Mr. Newson answers all inquiries from Gazette readers concerning Homes of Character free of charge. Always give number of home concerning which you write, and address "John Henry Newson, Homes of Character Dept., The Gazette."

## IN THE BEDROOMS OF YOUR NEW HOME

Gas wall brackets should be placed on each side of the bureau and dressers. These brackets can be equipped with simple or decorative glassware to harmonize with any bedroom furnishings.

If the room is particularly large, or if used for reading or writing, a semi-indirect fixture may be installed.

Convenient gas outlets should be installed for the use of a boudoir lamp and a gas heating stove.

Call at our office or send for a representative.

**New Gas Light Co. of Janesville**

7 North Main St.

Both Phones 113.

## EVERY MODERN HOME SHOULD BE WIRED FOR ELECTRICITY

Electricity is the modern servant in the house—it furnishes light at night, heat for cooking, power to run the sewing machine or vacuum cleaner.

It does not cost much to have this great modern necessity in the home

When you begin to plan your home let us send a representative to tell you how little it costs to wire your house for electricity.

**Janesville Contracting  
Company**
